The Art of Focused Conversation for Schools, Third Edition Jo Nelson, 2013-08-20 Why don't kids learn? Why can't students do higher order thinking? Why do educators have endless staff meetings with few results? How can parents and teachers communicate better? The pressure upon educators to teach more to a wider range and number of students with decreasing resources and supports makes it urgent to find tools to answer such questions. The Art of Focused Conversation for Schools demonstrates how the Focused Conversation method, widely used in organizations and businesses, can effectively be used in a K-12 educational setting. Each section deals with interactions among students, staff, and parents and elaborates with over 100 sample conversations designed to make learning more meaningful, prevent and solve problems, and make communications in meetings more effective. Appendices showcase integrated curriculum examples where conversations have been used in unique combinations and list sample questions for each level of the conversation method. With a bibliography and index included and patterned after its highly successful predecessor The Art of Focused Conversation: 100 Ways to Access Group Wisdom in the Workplace, this book will be welcomed by parents, students, educators, and school administrators everywhere. The Institute of Cultural Affairs has over 40 years' experience in more than 32 nations. A unique facilitation research and training organization, ICA Canada, has provided participatory skills to many thousands of people worldwide.

Developing Standards-Based Report Cards

Thomas R. Guskey, Jane M. Bailey, 2010 Providing a clear framework, this volume helps school leaders align assessment and reporting practices with standards-based education and develop more detailed reports of children's learning and progress.

How to Grade for Learning Ken O'Connor, 2017-10-04 Implement standards-based grading practices that help students succeed. Classroom assessment and grading should help students grow and develop to their full potential, but meshing traditional grading practices with students' achievement on standards has been difficult and daunting. Making real and lasting changes to grading practices requires both knowledge and willpower. This 4th edition of the best-selling How to Grade for Learning provides eight guidelines for good grading, offers recommendations for practical applications, and gives solid suggestions for implementing more effective grading practices. Ken O'Connor presents the latest research on motivation, mindset, learning styles, and beliefs about fairness to inform this new edition, which includes both the why's and the how-to's of implementing standards-based grading practices. 48 educator contributions from nationally and internationally known educators, authors, and consultants provide ideas and testimonials for effective assessment practices. Sections on hot-button issues such as academic dishonesty, extra credit, bonus points, and homework. Additional information on utilizing levels of proficiency and eliminating the use of percentages and averaging. Reflective exercises and numerous tools, including rubrics, sample letters, and case studies. Techniques for managing grading more efficiently. An invaluable resource for helping teachers assign grades that are accurate, consistent, meaningful, and supportive of learning, this book also makes an ideal staff
