Even before 1954, when the Supreme Court of the United States of America declared unconstitutional separate educational and recreational facilities, racial unrest and discord had become very nearly a part of the American way of life. But that way of life was very repugnant to most Americans. Since 1954, however, that unrest has resulted in the loss of life, limb, and property, and has cost the taxpayers of this nation tens of billions of dollars. And the end is not yet in sight. With Law Enforcement Agencies in this country continuing to exercise excessive force and murder of its So-called African-American citizenry. The statistics indicate that a violent confrontation is on the horizons. Why in fact given the recent uprisings in St. Louis and Cincinnati, it appears inevitable. This same injustice and violence has raised the tremendously grave question as to whether the races can ever live in peace with each other.

Each passing year and month has brought new intelligence that, despite new laws, programs passed or monies to alleviate the condition of the so-called Minority, the so-called Minority (African-Americans) is still not satisfied. Demonstration, rallies, sit-ins, marching and rioting have become a part of the familiar scene. Federal troops, State Police and National Guard Units have been called out in city after

Homo Narrans John D. Niles, 2010-08-03 It would be difficult to imagine what human life would be like without stories from myths recited by Pueblo Indian healers in the kiva ballads sung in Slovenian market squares folktales and legends told by the fireside in Italy to jokes told at a dinner table in Des Moines for it is chiefly through storytelling that people possess a past In Homo Narrans John D. Niles explores how human beings shape their world through the stories they tell The book vividly weaves together the study of Anglo Saxon literature and culture with the author's own engagements in the field with some of the greatest twentieth century singers and storytellers in the Scottish tradition Niles ponders the nature of the storytelling impulse the social function of narrative and the role of individual talent in oral tradition His investigation of the poetics of oral narrative encompasses literary works such as the epic poems and hymns of early Greece and the Anglo Saxon Beowulf texts that we know only through written versions but that are grounded in oral technique That all forms of narrative even the most sophisticated genres of contemporary fiction have their ultimate origin in storytelling is a point that scarcely needs to be argued Niles's claims here are more ambitious that oral narrative is and has long been the chief basis of culture itself that the need to tell stories is what distinguishes humans from all other living creatures
