Abstract

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: The equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. The equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: reorient or relocate the receiving antenna, increase the separation between the equipment and receiver, connect the equipment into a circuit different from that to which the receiver is connected, or consult the dealer or an experienced radio or TV technician for help.

The user should not make changes or modifications not expressly approved by NetScout Networks. Any such changes (user) void the user's authority to operate the equipment.

This Class II digital apparatus complies with Canadian CSIS-001. Cet appareil numérique de la classe II est conforme à la norme NMB-001 du Canada.

This device complies with the essential requirements and other relevant provisions of R&TEE (directive 1999/5/EC). A copy of the Declaration may be obtained from: Spital Nephrology, GmbH address: Inselhainstraße 18-19, 65007 Mainz, Germany.

Use only with Nitec-approved Limited Power Source (output rated at 150C, 120mA, 10W using Power Line 1,000 options, including standard power line Ethernet).

Warning: The carpal tunnel/splint region of the hand/wrist area and other small digits. Privacy of communications may not be ensured when using this telephone. To prevent radio interference to the licensed network, this device must be operated in *standby* only and should be kept away from antennas to provide maximum shielding.
