Roll to Hit Harry Slater, 2025-08-30 It might be unauthorized but this book sure is comprehensive This isn t just a book about a game The author focuses on the people who created it and expanded it over the decades as well as the people whose contributions have been hidden in the shadows A richly detailed exciting and frequently surprising history Booklist

Roll to Hit An Unofficial History of Dungeons and Dragons is a deep dive into the story behind the world s most popular tabletop roleplaying game From its humble beginnings in a basement in a house in a small town in Wisconsin through the Satanic Panic and the boom and bust of the 90s all the way to a modern resurgence that has seen the game become a true pop culture phenomenon the book tells the tale of the people who have shaped D D through every step of its development But more than that it s a story of leaps of imagination of shocking circumstances and tragedies of conflicts and comings together both on the table and off From HG Wells playing with toy soldiers to multi million dollar movie deals from early war simulations to crazy homebrew campaigns the book explores the history of D D and asks why even after all this time its name remains a shorthand for the tabletop roleplaying experience As Dungeons Dragons reaches its fiftieth birthday and with the game is as popular as it s ever been regular players old school gamers and newcomers are going to find something here to excite and entice After all without them without the players there d be no Dungeons Dragons at all

Slaying the Dragon Ben Riggs, 2022-07-19 2022 Goodreads Choice Awards Finalist 2023 Texas Topaz Nonfiction Reading List Dungeons Dragons It s the fantasy role playing game first conceived over fifty years ago by the now legendary company Tactical Studies Rules which has enthralled millions of devoted gamers around the world for generations It s a test of skill intelligence audacity and survival But no D D game ever played could compare to the stunning behind the scenes melee for power and dominance that was the true story of TSR Slaying the Dragon chronicles the rise and fall of TSR Tactical Studies Rules how the brilliant and wild minds of the legendary Gary Gygax and his co creator Dave Arneson gave birth to a game that would capture the imagination of outsiders and underdogs

throughout the world From its humble beginnings in the small town of Lake Geneva Wisconsin to its emergence as a cultural phenomenon TSR soon spawned an unlikely empire of games and geekdom with Dungeons Dragons leading the way that was decades ahead of its time inviting both hyper devoted fans as well as hysteria surrounding the game s supposed corrupting influence on America s youth TSR was in the news in the money and on top of the world But success soon took its toll with creative control and rivalries within the firm threatening the stability of TSR Former allies grew apart personally and professionally and the formerly fun freewheeling firm founded by a band of misfits collapsed into a desperate struggle for survival Despite attempts to grow in a changing market setbacks and management decisions put TSR in a downward spiral in the 1990s which resulted in the company s death and then resurrection by the most unlikely of saviors With author access to previously unreleased documents and insider stories and interviews with former TSR employees and associates who witnessed the high stakes machinations and maneuvering that would eventually seal the company s fate Slaying the Dragon is a fascinating revealing tale of friends turned enemies success and failure and loyalty and betrayal that no roll of the die could predict Praise for Slaying the Dragon A compelling corporate saga mired in mythmaking Kirkus Riggs s book a compelling adventure in itself features interviews with many of the key players narrated by a superfan The Washington Post Riggs has written a fascinating and dishy account of the business hits and whistling misses of a band of dreamers writers artists and geeks A must read for fighters magic users and even bards and everyone else too Brad Ricca Edgar nominated author of Mrs Sherlock Holmes and True Raiders Far from a fluff piece on a beloved hobby this book goes behind the GM s screen to take a hard nosed look at the people and circumstances that first gave rise to D D then nearly killed it twice Riggs takes you on a roller coaster from boom to near bankruptcy but never loses sight of the individuals involved the good the bad and the geeky Marie Brennan Hugo Award nominated author of the Memoirs of Lady Trent series We strongly recommend buying it especially if you are interested in TSR and D D history Dungeon Master Magazine An indispensable account about the legends and truth from the people that worked there Highly recommended Mike Mason co designer of Call of Cthulhu 7th edition

Dread Trident Curtis D. Carbonell, 2019 Dread Trident examines the rise of imaginary worlds in tabletop role playing games TRPGs such as Dungeons and Dragons With the combination of analog and digital mechanisms from traditional books to the internet new ways of engaging the fantastic have become increasingly realized in recent years and this book seeks an understanding of this phenomenon within the discourses of trans and posthumanism as well as within a gameist mode The book explores a number of case studies of foundational TRPGs Dungeons and Dragons provides an illustration of pulp driven fantasy particularly in the way it harmonizes its many campaign settings into a functional multiverse It also acts as a supreme example of depth within its archive of official and unofficial published material stretching back four decades Warhammer 40k and the Worlds of Darkness present an interesting dialogue between Gothic and science fantasy elements The Mythos of HP Lovecraft also features prominently in the book as an example of a realized

world that spans the literary and gameist modes Realized fantasy worlds are becoming ever more popular as a way of experiencing a touch of the magical within modern life Reworking Northrop Frye's definition of irony Dread Trident theorizes an ironic understanding of this process and in particular of its embodied forms Bergey's Manual® of Systematic Bacteriology Don J.
