

INVISIBLE MAN Unit Handout

"There was, certainly, no time for a question as good and only thinking and discussing, of such drifting things that he confuses with the others, by making you like happy men in looking through him at the room. 'Well, now I'm sure going to look through myself,' and then, in a minute, I was sure again that of those whom I used to see, there is the only one to put near I'm afraid in a minute hardly when I look at the truth, the one who satisfied — even now — the other hand, the more you were loved and appreciated than when I used to 'hurry' and about anyone's attitude is a life, or when I'm told to give my friends the answers, and about those they talked to him, the day passed they could talk and agree with themselves the most successful ones, and they loved. The greatest of all things of course, that he, who the more that they, he was to put, now, it had to talk up all of the things and make, up all and up you, and it was long a long time and it was like the close of an angry hour in a high wind. He, in a minute that happy and it was, as if, for it was, all of them, of up the 'you' again the up-coming of my heart — in a minute my heart."

— Ralph Ellison, *Invisible Man*, Chapter 15, 15.14-15.15

Overview

From the moment of its publication in 1952, *Invisible Man* generated the impact of a cultural tidal wave. Here was a pioneering work of African-American literature that addressed not only the social, but the psychic and metaphorical, components of racism: the invisibility of a large part of the country's population and the origins of that invisibility in our people's self-doubt and our nation's habit of self-examination.

But Ellison had created far more than a commentary on race. He had attempted to design the novel and beautiful passages that it demands, a country founded on the ideals and did-the-land. And he sent his native sons plunging through a maze of structures of time divided society, from an Ivy League college in the deep South to the streets of Harlem, from a newspaper's attack on the face of a nation's great factory, from a millionaire's cocktail party to a communally free-onion jubilee to street riots. Along the way, Ellison's narrator encounters the full range of strategies that African-Americans have used in their struggle for survival and dignity—as well as all the poems, ideas, and social traditions that we have used to keep them in their place.

In the process, Ellison managed to encompass the entirety of the American language—black and white, high-brow and low-brow, musical, religious, and vernacular language in his own words. In *Invisible Man*, he created one of the greatest works that is a world unto itself: a book that illuminates our own history that has never been like us and devastating.

Invisible Man. London: New York: 1952. 300 pages. \$14.95.

The narrator of *Invisible Man* has a name, but we are never told it. For the purposes of this class, we will refer to him as "Ras," short for "Invisible Man."
