Introduction

"Going public" is a key stage in the growth and development of a company. Obtaining a listing on the Hong Kong Stock Exchange enables a company to improve its standing in the business community and gives it greater access to equity and debt capital raising markets, while at the same time providing shareholders with an internationally recognised stock exchange on which they can freely trade their shares.

The Herbert Smith Hong Kong IPO Guide is intended to provide an overview to capital raising in Hong Kong and in particular to the initial public offering ("IPO") process for companies listing on the Main Board of the Exchange – from the pre-IPO strategic investor stage through listing.

There has been a significant growth in the market capitalisation of the Hong Kong market in recent years, spurred by the listing of Mainland enterprises. Red chip and H share companies now account for approximately 50% of the total market capitalisation of the Hong Kong market.

The global nature of the investment community and capital markets has resulted in more and more companies considering dual listings on other international exchanges, like New York or London, or structuring their offerings as exempt offerings so their shares can be offered to US and other investors.

When securities are offered to the "public" (which includes an IPO) any prospectus issued for the offering must contain prescribed information and must be registered. The "public" is defined widely however there are a number of exempt offers (including offers to less than 50 people) which are discussed below.

homeowners to farmers to utilities to tap more and more But the book also offers much reason for hope Award winning journalist Cynthia Barnett argues that the best solution is also the simplest and least expensive a water ethic for America Just as the green movement helped build awareness about energy and sustainability so a blue movement will reconnect Americans to their water helping us value and conserve our most life giving resource Avoiding past mistakes living within our water means and turning to local water as we do local foods are all part of this new blue revolution Reporting from across the country and around the globe Barnett shows how people businesses and governments have come together to dramatically reduce water use and reverse the water crisis Entire metro areas such as San Antonio Texas have halved per capita water use Singapore s closed water loop recycles every drop New technologies can slash agricultural irrigation in half businesses can save a lot of water and a lot of money with designs as simple as recycling air conditioning condensate The first book to call for a national water ethic *Blue Revolution* is also a powerful meditation on water and community in America [Books in Print Supplement](#) ,2002 *Forthcoming Books* Rose Arny,2000 [Government Phone Book USA 2005](#) Omnigraphics,Omnigraphics, Incorporated,2004-11 **International and US IPO Planning** Frederick D. Lipman,2008-12-22 Praise for International and U S IPO Planning Perhaps the greatest value of Frederick Lipman s new book on initial public offerings derives as its title indicates from the emphasis that it places on planning Lipman makes abundantly clear that an IPO is not something to be rushed into by every fledgling firm as was typical during the dot com boom of the late 1990s Indeed his extensive treatment of the many aspects of preparing a company for an IPO particularly the non financial aspects helps the reader to focus on the most important question of all Is an IPO appropriate for a given company Somewhat uniquely Lipman then asks the further question of whether an international IPO might be appropriate for that company even if a domestic one were not By doing so he has made a real contribution to this literature Kenneth C Froewiss Clinical Professor of Finance NYU Stern School of Business We are operating in a global environment in nearly every aspect of business and structuring planning for an IPO is no different The recent changes in regulations for U S listed companies have raised the cost of access of U S listed IPO capital making foreign exchanges much more attractive Fred Lipman has created a wonderful guide for managers to seriously access this option for their business I also hope his book is a wake up call to U S regulators on their impact on the competitiveness of U S securities markets Bob Hellman Managing Partner CEO American Infrastructure MLP Funds This book will be of immense value to the companies planning an IPO I am particularly struck by the research done by the author which in my opinion makes it an authentic guide for private companies not only in the U S but also in Asia particularly India and China where a huge opportunity awaits companies to mature into sustainable enterprises by involving a large section of society in their IPO M K Chouhan Chairman Mahendra Young Knowledge Foundation and Vice Chairman of Global Advisory Board Asian Centre for Corporate Governance This book contains valuable suggestions for advanced planning for both U S and international IPOs and belongs in the library of every entrepreneur and
