Congress, 2015 *CYBER GRU. Russian military intelligence in cyberspace* Antonio Villalón-Huerta, 2025-07-04 This book provides an in depth view of the GRU the Russian military intelligence agency in cyberspace With its Soviet roots the GRU is a secretive organization that conducts hostile operations in both kinetic and cyber domains Particularly in cyberspace the GRU has developed powerful capabilities through various military units and a full spectrum of techniques These capabilities allow the agency to conduct a wide range of cyberspace operations from sabotage and espionage to psychological warfare The complexity of some of these operations combined with the GRU's high risk appetite and Spetsnaz like mindset makes it one of the most formidable and sophisticated cyber threat actors

An Insight into China-US Competition in the Field of Artificial Intelligence Sana Gul, 2022-01-10 Examination Thesis from the year 2021 in the subject Computer Sciences Artificial Intelligence grade 3 77 University of Peshawar course BS International Relations language English abstract Artificial intelligence has recently emerged as a new subject of international competitiveness In the realm of artificial intelligence both United States and China are world leaders The struggle between both the countries in AI will heighten mutual mistrust accelerate the artificial intelligence arms race and endanger geopolitical stability This research looks at how both nations are progressing in many sectors of artificial intelligence and how Beijing is challenging America However there remains a gap between them in terms of artificial intelligence advancement In the race for artificial intelligence supremacy the United States is losing ground to China because of no long term strategy The study examines the prospect that artificial intelligence might have an impact on the two nations national security as well as substantial alterations in the future power structures of the US and China Still China may become an emerging global power and it is using artificial intelligence to elevate its position by sidelining the
