**The Statesman's Yearbook 2024** Palgrave Macmillan, 2024-01-03 Now in its 160th edition The Statesman's Yearbook continues to be the reference work of choice for accurate and reliable information on every country in the world Covering political economic social and cultural aspects the Yearbook is also available online for subscribing institutions *Handbook on the Governance and Politics of Migration* Emma Carmel, Katharina Lenner, Regine Paul, 2021-04-30 This innovative Handbook sets out a conceptual and analytical framework for the critical appraisal of migration governance Global and interdisciplinary in scope the chapters are organised across six key themes conceptual debates categorisations of migration governance regimes processes spaces of migration governance and mobilisations around it **Institutional Translation and Interpreting** Fernando Prieto Ramos, 2020-11-17 This collection brings together new insights around current translation and interpreting practices in national and supranational settings The book illustrates the importance of further reflection on issues around quality and assessment given the increased development of resources for translators and interpreters The first part of the volume focuses on these issues as embodied in case studies from a range of national and regional contexts including Finland Switzerland Italy Spain and the United States The second part takes a broader perspective to look at best practices and questions of quality through the lens of international bodies and organizations and the shifting roles of translation and interpreting practitioners in working to manage these issues Taken together this collection demonstrates the relevance of critically examining processes competences and products in current institutional translation and interpreting settings at the national and supranational levels paving the way for further research and quality assurance strategies in the field The Introduction Chapter 7 and Conclusion of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license The Report: Myanmar 2017 Oliver Cornock, 2017 In recent years trade and investment in Myanmar have soared buoyed by ongoing efforts to liberalise the economy and a successful political transition in November 2015 that saw the National League for Democracy become the country's first civilian led government elected to power in modern history Political reforms have brought significant economic benefits as the US government moved to lift burdensome sanctions that had weighed on investor sentiment and trade growth With the administration now moving to implement a host of domestic reforms loosen internal trade restrictions and draft a new investment law growth is expected to resume apace following a slowdown during the election year **Proceedings of IAC-TLEI 2017** group of authors, 2017-04-11 International Academic Conference on Teaching Learning and E learning in Budapest Hungary 2017 IAC TLEI 2017 Friday Saturday April 14 15 2017 Fitness to Plead Ronnie Mackay, Warren Brookbanks, 2018-06-14 The law relating to fitness to plead is an increasingly important area of the criminal law While criminalization may be justified whenever an offender commits a sufficiently serious moral wrong requiring that he or she be called to account the doctrine of fitness to plead calls

this principle into question in the case of a person who lacks the capacity or ability to participate meaningfully in a criminal trial In light of the emerging focus on capacity based approaches to decision making and the international human rights requirement that the law should treat defendants fairly this volume offers a benchmark for the theory and practice of fitness to plead providing readers with a unique opportunity to consider differing perspectives and debate on the future development and direction of a doctrine which has up till now been under discussed and under researched The fitness to plead rules stand as an exception to notions of public accountability for criminal wrongdoing yet despite the doctrine s long standing function in criminal procedure it has proven complex to apply in practice and has given rise to many varied legislative models and considerable litigation in different jurisdictions Particularly troublesome is the question of what is to be done with someone who has been found unfit to stand trial Here the law is required to balance the need to protect those defendants who are unable to participate effectively in their own trial whether permanently or for a defined period and the need to protect the public from people who may have caused serious social harm as a result of their antisocial behaviour The challenge for law reformers legislators and judges is to create rules that ensure that everyone who can properly be tried is tried while seeking to preserve confidence in the fairness of the legal system by ensuring that people who cannot properly engage in the criminal trial process are not forced to endure it
