City and Soul in Divided Societies Scott Bollens, 2012-06-25 In this unique book Scott A Bollens combines personal narrative with academic analysis in telling the story of inflammatory nationalistic and ethnic conflict in nine cities Jerusalem Beirut Belfast Johannesburg Nicosia Sarajevo Mostar Bilbao and Barcelona Reporting on seventeen years of research and over 240 interviews with political leaders planners architects community representatives and academics he blends personal reflections reportage from a wealth of original interviews and the presentation of hard data in a multidimensional and interdisciplinary exploration of these urban environments of damage trauma healing and repair City and Soul in Divided Societies reveals what it is like living and working in these cities going inside the head of the researcher This approach extends the reader's understanding of these places and connects more intimately with the lived urban experience Bollens observes that a city disabled by nationalistic strife looks like a callous landscape of securitized space divisions and wounds frozen in time and in place Yet the soul in these cities perseveres Written for general readers and academic specialists alike City and Soul in Divided Societies integrates facts opinions photographs and observations in original ways in order to illuminate the substantial challenges of living in and governing polarized and unsettled cities

**The E-Toll Saga** Wayne Duvenage, 2015-07-01 The E Toll Saga recounts the journey of Wayne Duvenage from a conscientious corporate CEO into the role of civil activist putting all his energy and resources into fighting the controversial decision by those who sought to implement electronic tolling to finance a major road construction project in Gauteng the economic heartland of southern Africa The Opposition to Urban Tolling Alliance OUTA sprung up from nothing to a highly visible and trusted brand in the not for profit space in a matter of a few months in the process raising over R12 million for litigation and civil action While led by Wayne OUTA's success was driven but a small group of people As events unfolded OUTA's legal challenges transformed into civil action testing the resolve and rationale of government and the South African National Roads Agency Limited SANRAL to continue with the e toll scheme described by many as a disaster for SANRAL and an embarrassment for the South African government The E Toll Saga describes one man's inspiring personal story but it also contains valuable lessons on what makes a civil organisation effective and how to mobilise an active citizenry to work towards positive transformation in South Africa

**Taming the Disorderly City** Martin J. Murray, 2017-08-31 In postapartheid Johannesburg tensions of race and class manifest themselves starkly in struggles over rights to the city Real estate developers and the very poor fight for control of space as the municipal administration steps aside almost powerless to shape the direction of change Having ceded control of development to the private sector the Johannesburg city government has all but abandoned residential planning to the unpredictability of market forces This failure to plan for the civic good and

the resulting confusion is a perfect example of the entrepreneurial approaches to urban governance that are sweeping much of the Global South as well as the cities of the North Martin J Murray brings together a wide range of urban theory and local knowledge to draw a nuanced portrait of contemporary Johannesburg In *Taming the Disorderly City* he provides a focused intellectual and political critique of the often ambivalent urban dynamics that have emerged after the end of apartheid Exploring the behaviors of the rich and poor each empowered in their own way as they rebuild a new Johannesburg we see the entrepreneurial city high rises shopping districts and gated communities surrounded by and intermingled with poverty In graceful prose Murray offers a compelling portrait of the everyday lives of the urban poor as seen through the lens of real estate capitalism and revitalization efforts
