The Circular Pilgrimage John R. Rosenberg, 1994

The Circular Pilgrimage approaches Spanish autobiography from the perspective that no significant formal distinctions exist between fictional and nonfictional discourse. It demonstrates that formulas as diverse as those created by Santa Teresa and Cela's fictional Pascual Duarte depart from the same narrative tradition that attempts to transform the creative subject by means of aesthetic principles. The autobiographers compose their stories both to produce and to verify a personal transformation. In both spiritual autobiography and secular confessions the conversion is developed in the form of Christianized romance that includes the stages of fall, exile, and redemption. The author shows how this underlying structure is undermined by the autobiographers themselves. The promise of renovation through art is revoked as the language that makes the transformation possible is shown to be unstable and therefore incapable of representing an image of either the old or the supposed new self. The writer becomes a pilgrim who never arrives at Judea.

The Oxford Encyclopedia of American Literature Jay Parini, 2004

The Encyclopedia of American Literature gathers together 350 essays from over 190 leading scholars on the whole of American literature from European discovery to the present. At the core of the Encyclopedia lie 250 essays on poets, playwrights, essayists, and novelists. Figures such as Whitman, Melville, Faulkner, Frost, and Morrison are discussed in detail with each examined in the context of his or her times, an assessment of the writer's current reputation, a bibliography of major works, and a list of major critical and biographical works about the writer. Fifty entries on major works such as *Moby Dick*, *Song of Myself*, *Walden*, *The Great Gatsby*, *The Waste Land*, *Their Eyes Were Watching God*, *Death of a Salesman*, and *Beloved* place the work in its historical context and offer a range of possibilities with regard to critical approach. The Encyclopedia also contains essays on literary movements, periods, and themes pulling together a broad range of information and making connections between them. Each entry has its own primary and annotated secondary bibliography, and a system of cross references helps readers locate information with ease. The Encyclopedia of American Literature is an outstanding reference source for students studying authors or particular pieces of literature, libraries looking for one comprehensive source, and readers interested in American literature, its authors, and its connection
