

The first section of the report documents the time, date, and location of the accident, including the city or town, distance to the nearest intersection, and whether the crash occurred at a railroad crossing or highway. This section also documents the number of vehicles involved

Each "Unit" listed on the left or right side is a vehicle or pedestrian involved in the accident. First, the report lists the operator's name, address, phone number, and driver's license information. This section also documents whether a driver had obstructed vision, was impaired, or was suspected to be driving under the influence, all of which can affect fault for the accident.

The next section documents the owner of each vehicle (if different from the driver) and the vehicle itself, including the vehicle identification number (VIN), license plate, year, make, and insurance information. Additional information is included if the vehicle was commercial.

Finally, the first page lists all other involved people, such as passengers or witnesses. If anyone received emergency medical attention, that is documented at the bottom of the page; note, however, that not all injuries require emergency medical attention or are even immediately obvious when the accident occurs.
