*Mergent International Manual*, 2009      **Daily Graphic** Ransford Tetteh, 2008-12-03      Digital Wars Charles Arthur, 2012-03-03 Which of Apple Google and Microsoft had an office with a drawer of broken dreams and what real objects lay inside it When did Microsoft have the chance to catch Google in making money from search and who vetoed it Why did Google test 40 shades of blue on its users How long did outside developers wait before asking to write apps for Apple's iPhone after Steve Jobs announced it Who said that Microsoft should have its own music player and why did it fail The answers and much more can be found in this new book by Charles Arthur technology editor of The Guardian newspaper of London Digital Wars starts in 1998 when the internet and computing business was about to be upended by an antitrust case a tiny start up and a former giant rebuilding itself It looks at what are now the three best known tech companies and through the voices of former and current staff examines their different strategies to try to win the battle to control the exploding network connecting the world Microsoft was a giant soon to become the highest valued company in the world while Apple was a minnow and Google just a startup By February 10 2012 Apple was worth more 462bn than both Microsoft 258bn and Google 198bn combined The chance had come from tumultuous battles between the three To win their battles Apple used design the vertical model of controlling the hardware and software and a relentless focus on the customer to the exclusion of others Microsoft depended on the high quality of its employees programming skills and its monopolies in software to try to move into new markets such as search and music Google focused on being quick efficient and using the power of data analysis not human taste to make decisions and get ahead of would be rivals With exclusive information from interviews with people such as Don Norman former VP of Apple Computer and Pieter Knook former SVP of the Mobile Communications Business at Microsoft and many more current and former staff of the three companies including one person who has worked for all three Arthur also addresses what the inventors of the hard drive used in the iPod thought it would really be used for how Apple transformed the smartphone market which of Android or Apple that forced Microsoft to abandon Windows Mobile what happened to Microsoft's tablet plans and much more      Mobile Web 2.0 Syed A. Ahson, Mohammad Ilyas, 2010-12-07 From basic concepts to research grade material Mobile Web 2.0 Developing and Delivering Services to Mobile Devices provides complete and up to date coverage of the range of technical topics related to Mobile Web 2.0 It brings together the work of 51 pioneering experts from around the world who identify the major challenges in Mobile Web 2.0 appl      **Compact Cinematics** Pepita Hesselberth, Maria Poulaki, 2017-01-26 Compact Cinematics challenges the dominant understanding of cinema to focus on the various compact short miniature pocket sized forms of cinematics that have existed from even before its standardization in theatrical form and in recent years have multiplied and proliferated taking up an increasingly important part of our everyday multimedia environment Short films or micro narratives cinematic pieces or units re assembled into image archives and looping themes challenge the concepts that have traditionally been used to understand cinematic

experience like linear causality sequentiality and closure and call attention to complex and modular forms of cinematic expression and perception Such forms in turn seem to meet the requirements of digital convergence which has pushed the development of more compact and mobile hardware for the display and use of audiovisual content on laptops smartphones and tablets Meanwhile contemporary economies of digital content acquisition filing and sharing equally require the shrinking of cinematic content for it to be recorded played projected distributed and installed with ease and speed In this process cinematic experience is shortened and condensed as well so as to fit the late capitalist attention economy The essays in this volume ask what this changed technical socio economic and political situation entails for the aesthetics and experience of contemporary cinematics and call attention to different concepts theories and tools at our disposal to analyze these changes
