Manual Of Protective Action Guides And Protective:

Manual of Protective Action Guides and Protective Actions for Nuclear Incidents ,1980 **PAG Manual** ,2016 The U S Environmental Protection Agency EPA has developed this Manual to assist public officials in planning for emergency response to radiological incidents For purposes of this document a radiological incident is an event or a series of events deliberate or accidental leading to the release or potential release into the environment of radioactive materials in sufficient quantity to warrant consideration of protective actions This Manual provides radiological protection criteria for application to all incidents that would require consideration of protective actions *Manual of Protective Action Guides and Protective Actions for Nuclear Incidents. Revision* ,1980 This manual has been prepared to provide practical guidance to State local and other officials on criteria to use in planning protective actions for radiological emergencies that could present a hazard to the public The guidance presented here is not intended as a substitute for or an addendum to a State radiological emergency response plan It is intended only to provide information for use in the development of such a plan The manual is organized to provide first a general discussion of Protective Action Guides and their use in planning for the implementation of protective actions to protect the public This is followed by chapters dealing with Protective Action Guides for specific exposure pathways and time periods The application of Protective Action Guides and protective actions is discussed separately for various categories of source terms Support information that has not been previously published is provided as appendices
