Cricket, Kirikiti and Imperialism in Samoa, 1879-1939 Benjamin Sacks,2019-10-10 This book considers how Samoans embraced and reshaped the English game of cricket recasting it as a distinctively Samoan pastime kirikiti Starting with cricket s introduction to the islands in 1879 it uses both cricket and kirikiti to trace six decades of contest between and within the categories of colonisers and colonised How and why did Samoans adapt and appropriate the imperial game How did officials missionaries colonists soldiers and those with mixed foreign and Samoan heritage understand and respond to the real and symbolic challenges kirikiti presented And how did Samoans use both games to navigate foreign colonialism s By investigating these questions Benjamin Sacks suggests alternative frameworks for conceptualising sporting transfer and adoption and advances understandings of how power politics and identity were manifested through sport in Samoa and across the globe Out-Innovate Alexandre "Alex" Lazarow,2020-04-07 The new playbook for innovation and startup success is emerging from beyond Silicon Valley at the frontier Startups have changed the world In the United States many startups such as Tesla Apple and Amazon have become household names The economic value of startups has doubled since 1992 and is projected to double again in the next fifteen years For decades the hot center of this phenomenon has been Silicon Valley This is changing fast Thanks to technology startups are now taking root everywhere from Delhi to Detroit to Nairobi to Sao Paulo Yet despite this globalization of startup activity our knowledge of how to build successful startups is still drawn primarily from Silicon Valley As venture capitalist Alexandre Lazarow shows in this insightful and instructive book this Silicon Valley gospel is due for a refresh and it comes from what he calls the frontier the growing constellation of startup ecosystems outside of the Valley and other major economic centers that now stretches across the globe The frontier is a truly

different world where startups often must cope with political or economic instability and lack of infrastructure and where there might be little or no access to angel investors venture capitalists or experienced employee pools Under such conditions entrepreneurs must be creators who build industries rather than disruptors who change them because there are few existing businesses to disrupt The companies they create must be global from birth because local markets are too small They focus on resiliency and sustainability rather than unicorn style growth at any cost With rich and wide ranging stories of frontier innovators from around the world Out Innovate is the new playbook for innovation wherever it has the potential to happen
