Religious Freedom and Religious Pluralism in Africa Pieter Coertzen, M Christian Green, Len Hansen, 2016-05-22
Africa continues to be a region with strong commitments to religious freedom and religious pluralism. These, however, are rarely mere facts on the ground; they are legal, political, social, and theological projects that require considerable effort to realise. This volume, compiling the proceedings of the third annual conference of the African Consortium for Law and Religion Studies, focuses on various issues which vastly effect the understanding of religious pluralism in Africa. These include, amongst others, religious freedom as a human right, the importance of managing religious pluralism, and the permissibility of religious practice and observance in South African public schools.

Tropentag 2023 International Research on Food Security, Natural Resource Management and Rural Development Eric Tielkes, 2023-09-15
Tropentag is the largest interdisciplinary conference in Europe focusing on development-oriented research in the fields of tropical and subtropical agriculture, food security, natural resource management, and rural development. It is clear that a just and sustainable transformation of our food systems is urgently needed. Climate change, conflicts, rising food and fuel prices, and growing social and income inequalities are exacerbating the vulnerabilities of our food systems. The theme invites diverse contributions that explore different pathways for transforming food systems and the trade-offs and synergies involved, ranging from more technical solutions such as climate-smart agriculture and biofortified crops to more systematic solutions for changing the underlying relationships of our food systems such as agroecology and alternative food networks.
