**Cool Careers Without College for People Who Can Build Things** Heather Moore

Niver, 2013-12-15 Finding a career out of high school based on one's interests especially something as general as liking to

build things isn't always easy. However, this title gives readers a variety of avenues to consider. Readers can consider careers as a gardener, sculptor, tailor, carpenter, and even doll maker. Not only can they learn how to break into these fields, but each section has a listing of resources to further their research. With this title, young people just out of high school can take that ever-important first step on their way to a career.

**Welding** Larry Jeffus, 2011-07. Now nearing its 30th year of publication, *WELDING PRINCIPLES APPLICATIONS WP A* 7th Edition is the authoritative introduction to the subject of welding. It's designed for students in a wide range of academic and workforce training programs who want to pursue careers as skilled welders and welding supervisors. The text also supports the needs of learners who need to achieve a basic level of proficiency in welding in their chosen skilled trade. While covering the procedural and safety information all students need, *WELDING PRINCIPLES APPLICATIONS* also explains underlying theories. The combination of hands-on information with clear explanations of theory is a hallmark of this book. The depth of coverage allows it to be used as the core text in a multi-course welding curriculum, generally starting with shielded metal arc welding and then covering other basic processes and more advanced techniques.
