Bordering Tibetan Languages Gerald Roche, Gwendolyn Hyslop, 2025-10-01 Bordering Tibetan Languages Making and Marking Languages in Transnational High Asia examines the complex interactions between state ethnic and linguistic borders in the Himalayas These case studies from Bhutan China India and Nepal show how people in the Himalayas talk borders into existence and also how those borders speak to them and their identities These talking borders exist in a world where state borders are contested and which is being irrevocably transformed by rapid social and economic change This book offers a new perspective on this dynamic region by centring language and in doing so also offers new ways of thinking about how borders and language influence each other

Language Standardization and Language Variation in Multilingual Contexts Nicola McLelland, Hui Zhao, 2021-11-24 This important contribution to the sociolinguistics of Asian languages breaks new ground in the study of language standards and standardization in two key ways in its focus on Asia with particular attention paid to China and its neighbours and in the attention paid to multilingual contexts The chapters address various kinds of sometimes hidden multilingualism and examine the interactions between multilingualism and language standardization offering a corrective to earlier work on standardization which has tended to assume a monolingual nation state and monolingual individuals Taken together the chapters in this book thus add to our understanding of the ways in which multilingualism is implicated in language standardization as well as the impact of language standards on multilingualism The introduction Chapter 6 and Chapter 8 are free to download as open access publications under a CC BY NC licence You can access them here Introduction <https://zenodo.org/record/5749388> YaiwuNDP3cs Chapter 6 <https://zenodo.org/record/5749522> Yaiw 9DP3cs
