Knight S Judgment Knight Series Volume 1:

Selected Essays by Frank H. Knight, Volume 1 Frank H. Knight, 1999 Frank H Knight 1885 1972 was a central figure many say the dominant influence in the development of the Chicago School of Economics at the University of Chicago in the 1930s and 1940s where he taught future Nobel laureates Milton Friedman James Buchanan George Stigler and many other notable scholars It was Knight s embedded skepticism about the reach of economic knowledge that set the stage for the laissez faire economics that matured at the University in the 1950s and 1960s But as important as Knight s technical economic contributions were he never strayed far from his broad philosophical interests and concern for the state of modern liberal democracy Ross B Emmett s selection of Knight s essays is the first to offer a comprehensive picture of the work of this notable social scientist over the span of his career Included are not only Knight s most influential writings but also a number of uncollected papers which have not previously been widely accessible These essays illustrate Knight s views on the central debates regarding economics social science ethics education and modern liberalism Volume 1 What is Truth in Economics contains fifteen of Knight s papers up through 1940 Volume 2 Laissez Faire Pro and Con includes fourteen of Knight s papers from 1940 through 1967 including Socialism The Nature of the Problem and The Sickness of Liberal Society These twenty nine essays together stand not only as a monument to one of economics most significant and original thinkers but will also serve as an invaluable resource for economists philosophers and political scientists interested in the development of the western liberal tradition
