Knowledge Marian Adolf, Nico Stehr, 2016-09-22 As we move through our modern world the phenomenon we call knowledge is always involved Whether we talk of know how technology innovation politics or education it is the concept of knowledge that ties them all together But despite its ubiquity as a modern trope we seldom encounter knowledge in itself How is it produced where does it reside and who owns it Is knowledge always beneficial will we know all there is to know at some point in the future and does knowledge really equal power This book pursues an original approach to this concept that seems to define so many aspects of modern societies It explores the topic from a distinctly sociological perspective and traces the many ways that knowledge is woven into the very fabric of modern society

Knowledge on the Move in a Transottoman Perspective Evelin Dierauff, Dennis Dierks, Barbara Henning, Taisiya Leber, Ani Sargsyan, 2021-09-06 The volume investigates flows of knowledge that transcended social cultural linguistic and political boundaries Dealing with different sources such as dictionaries early printed books political advice

Knowledge Society Anna-Katharina Hornidge,2007 Abstract At a time of knowledge becoming increasingly relevant to social and economic development governments worldwide aim at the creation of country specific types of k society i e information societies knowledge societies or knowledge based economies This book redraws the processes of constructing k societies in Germany and Singapore and offers an empirically based definition of k society which has been missing until now Based on the conducted research I argue that k societies are created by collective actors in society and are not as often assumed merely the result or logical consequence of the technological developments in the information and communication sector the growth of the service industry and the high profit margin of knowledge intensive goods I empirically focus on the activities of the state as collective actor who massively pursues the creation of k societies in Germany and Singapore The remaining subsystems engaged in the construction process economy

Knowledge Societies Nico Stehr,1994 In present day societies knowledge is not only the key to the world but the making of the world In this broad ranging analysis of the central role that knowledge plays in our life Nico Stehr critically examines the premises of existing social theory and explores the knowledge relations in advanced societies The result is a significant new synthesis of social theory
