

Mr. Mercedes

Angie Odenkirk had a 1997 Datsun that still ran well in spite of high mileage, but gas was expensive, especially for a man with no job, and City Center was on the far side of town, so he decided to take the last bus of the night. He got off at twenty past eleven with his pack on his back and his rolled-up sleeping bag under one arm. He thought he would be glad of the down-filled bag by A.M. The night was misty and chill.

"Good luck, man," the driver said as he stepped down. "You ought to get something for just being the first one there."

Only he wasn't. When Angie reached the top of the wide, steep drive leading to the big auditorium, he saw a cluster of at least two dozen people already waiting outside the rank of doors, some standing, most sitting. Posts strung with yellow DO NOT CROSS tape had been set up, creating a complicated passage that doubled back on itself, maze-like. Angie was familiar with these from movie theaters and the bank where he was currently

Radical Nigel Krauth,2016-07-18 The rise of digital publishing and the ebook has opened up an array of possibilities for the writer working with innovation in mind Creative Writing and the Radical uses an examination of how experimental writers in the past have explored the possibilities of multimodal writing to theorise the nature of writing fiction in the future It is clear that experimental writers rehearsed for technological advances long before they were invented Through an in depth study of writers and their motivations challenges and solutions the author explores the shifts creative writing teachers and students will need to make in order to adapt to a new era of fiction writing and reading **Publishers' Circular** ,1922 Reference

Guide to World Literature Tom Pendergast,2003 Covers writers from the ancient Greeks to 20th century authors Includes biographical bibliographical entries on nearly 500 writers and approximately 550 entries focusing on significant works of world literature Each author entry provides a detailed overview of the writer s life and works Work entries cover a particular piece of world literature in detail Four Shades of Gray Simon Peter Rowberry,2022-04-05 This first book length analysis of Amazon s Kindle explores the platform s technological bibliographical and social impact on publishing Four Shades of Gray offers the first book length analysis of Amazon s Kindle and its impact on publishing Simon Peter Rowberry recounts how Amazon built the infrastructure for a new generation of digital publications then considers the consequences of having a single company control the direction of the publishing industry Exploring the platform from the perspectives of technology texts and uses he shows how the Kindle challenges traditional notions of platforms as discrete entities He argues that Amazon s influence extends beyond disruptive technology to embed itself in all aspects of the publishing trade yet despite industry pushback he says the Kindle has had a positive influence on publishing Rowberry documents the first decade of the Kindle with case studies of Kindle Popular Highlights an account of the digitization of books published after 1922 and a discussion of how Amazon s patent filings reflect a shift in priorities Rowberry argues that while it was initially convenient for the book trade to outsource ebook development to Amazon doing so has had adverse consequences for publishers in the mid and long term limiting opportunities for developing an inclusive and forward thinking digital platform While it has forced publishers to embrace digital forms the Kindle has also empowered some previously marginalized readerships Although it is still too early to judge the long term impact of ebooks compared with that of the older technologies of clay tablets the printing press and offset printing the shockwaves of the Kindle continue to shape publishing **A Just Transition** NJ

Ayuk,2023-03-07 The book addresses the many problems with the West s current approach to development in Africa showing how foreign aid and misguided investments have often prevented African countries from meeting their own needs and offers concrete suggestions for a viable program of electrification economic development and capacity building that will lead to

climate friendly energy production Kirkus Reviews Mr Ayuk shows how the oil and gas industry can unleash economic development and prosperity across the continent The late OPEC Secretary General Mohammad Barkindo In just a few short decades the many countries of our planet have become interconnected beyond our wildest imaginations And as our view of the world has expanded there has been a rise in the demand for cultures and political institutions around the world to think globally While thinking globally is often well meaning acting globally without consideration for local countries can unintentionally cause harmful results In A Just Transition renowned Cameroonian author and entrepreneur NJ Ayuk reveals how this sobering reality is unfolding as the International Energy Agency s ambitious green energy IEA policies have stifled and crippled the energy economies of Africa When the IEA set a hard requirement for countries around the world to embrace green energy sources the burgeoning energy economies of Africa watched in horror as funding and business interest in their oil and gas energy projects evaporated With a natural abundance of oil and gas resources Africa has the potential to be a global energy leader But this transformation cannot happen for African countries through green energy alone A Just Transition is an insightful exploration into the possibility of a bright future for African countries and the factors that stand in the way of its manifestation NJ Ayuk takes listeners on a detailed expert journey through the following topics The reality of energy poverty The value of natural gas in Africa How foreign aid actually harms Africa Embracing new technology Creating opportunities for women And much more With thoughtful governance a keen eye for opportunity and the due consideration of the countries affected by a sweeping legislation it is possible for countries in Africa to make a transition to renewable energy that is not only just but prosperous for all involved **Catalog of Copyright Entries.
