Volume one of the Handbooks of Management Accounting Research sets the context for both Handbooks with three chapters outlining the historical development of management accounting as a discipline and as a practice in three broad geographic settings. The bulk of the first volume then draws together a series of contributions that analyse the scholarly literature in terms of distinct intellectual and theoretical social science perspectives. The volume includes a chapter which looks at work informed by psychology as a base discipline. The volume also includes a set of chapters that seek to evaluate and explain issues of research method for the different approaches to research found within management accounting. Special pricing available if purchased as a set with Volume 2. Documents the scholarly management accounting literature. Publishing both in print and online through Science Direct International in scope. Managerial Accounting Michael Maher, Clyde P. Stickney, Roman L. Weil, 2006. This classic text for MBA programs offers balanced coverage of concepts, methods and uses of managerial accounting with an increasingly strong emphasis on management decision making. This approach helps focus on concepts and managerial uses of financial information rather than techniques of cost accounting. The current edition emphasizes international issues, strategic effects of decisions, ethics and new management accounting trends. Also emphasized are process improvement, integration of financial reporting issues for management decision making and application of managerial accounting tools to the emerging service sector, government and nonprofits in examples and problem material. Hospitality Management Accounting, 6e Student Workbook Michael M. Coltrane, 1998. CRUCIAL ACCOUNTING SKILLS FOR THE HOSPITALITY PROFESSIONAL. In the fast growing and increasingly competitive hospitality industry, every business is under extreme pressure to maximize revenue and minimize costs simply to maintain existing profit levels. Hospitality Management Accounting, Seventh Edition gives students a firm grounding in the fundamental concepts and analytical techniques they will need as professionals to take direct control of an accounting system and evaluate the effectiveness of current and past operations. Filled with case studies, expanded exercise and problem sections and alternative solution sets that provide multiple problem solving approaches, this updated new edition is the only text in the field that covers credit card receivables. It features an extensive review of accounting systems and a special section on the use of computers in the hospitality industry. Important topics covered in this text include: Understanding, analyzing and interpreting financial statements; Ratio analysis and internal control; The bottom up approach to pricing; Cost management and the cost volume profit approach to decisions; Operations budgeting and cash budgeting; Statement of cash flows and working capital. Hospitality Management Accounting, Seventh Edition equips hospitality management and culinary students with the skills they need to take command of one of the most crucial aspects of the management of any hospitality business. *CPA Problems and Approaches to Solutions: Problems and approaches* Charles T. Horngren, J. Arthur Leier, 1974.
