

**The  
Nelson-Atkins  
Museum  
of Art**

Since before the founding of our nation, American artists have sought to represent the events, identities, and experiences of their own times. Often their works also served to shape perceptions and opinions among the American public. Exploring American art gives students of today the chance to consider the interdependent relationship between artists and their historical contexts while also experiencing the way art can reach across time and move us in the present.

Look inside for background information about American art at the Nelson-Atkins, questions and activities to engage your students both at the museum and in the classroom, and suggestions for where to learn more.
