The Programmer's Guide to iSeries Navigator Paul Touhy, 2006 iSeries Navigator is a favorite tool of operators and administrators who use it with great success but many programmers have missed the great programming tools that it provides. This book introduces you to iSeries Navigator along with all the powerful tools and interfaces that will expand your programming horizons. As iSeries applications continue to move toward a graphical user interface (GUI) so does the development environment. Programs such as CODE and WDSC may fill the need for the programming environment but iSeries Navigator fills the programmer's need for general system access as well as database management and development. Starting with an introduction to the basics of iSeries Navigator including how to perform standard day to day commands in Navigator as opposed to green screen, the book goes on to explain the advantages of Navigator over green screen operations. For the programmer it is in the GUI interface to DDL in Navigators that they will realize the most benefit. And as DDS for database is replaced by SQL's DDL, the importance of knowing iSeries Navigator will grow. Navigator also provides GUI equivalents of standard green screen commands such as WRKSPLF, WRKSBMJOB and DSPJOB as well as graphical access to the Integrated File System (IFS). To maximize your efficiencies as a programmer you need to learn the intricacies of this interface. Join Paul Tuohy as he shows you the ins and outs of iSeries Navigator in a helpful, comprehensive and entertaining way. With a foreword by Susan Gantner. With *The Programmer's Guide to iSeries Navigator* you will learn iSeries Navigator from a programmer's point of view. Discover database features that are uniquely available with DDL. Get a true GUI interface to the Database Navigator that far exceeds any green screen. Use the Integrated

File System IFS to access PCs from the iSeries Access the IFS to share directories store program sources and more Discover Navigator tools that simplify SQL coding Simplify the task of creating SQL tables in place of DDS created physical files Improve the performance of your SQL statements with the Visual Explain tool Master the database feature of Navigator to create and maintain collections tables views indexes constraints and functions *Service Pack A Complete Guide - 2019 Edition* Gerardus Blokdyk, 2019-06-19 Can patches and Service Packs be uninstalled How extensively are patches and Service Packs tested before they are released Have you defined a customer facing Service Catalog which details every service and service package offered How do you check what service packs and hotfixes you have How long do data need to be kept in the archive database if at all This instant Service pack self assessment will make you the trusted Service pack domain veteran by revealing just what you need to know to be fluent and ready for any Service pack challenge How do I reduce the effort in the Service pack work to be done to get problems solved How can I ensure that plans of action include every Service pack task and that every Service pack outcome is in place How will I save time investigating strategic and tactical options and ensuring Service pack costs are low How can I deliver tailored Service pack advice instantly with structured going forward plans There s no better guide through these mind expanding questions than acclaimed best selling author Gerard Blokdyk Blokdyk ensures all Service pack essentials are covered from every angle the Service pack self assessment shows succinctly and clearly that what needs to be clarified to organize the required activities and processes so that Service pack outcomes are achieved Contains extensive criteria grounded in past and current successful projects and activities by experienced Service pack practitioners Their mastery combined with the easy elegance of the self assessment provides its superior value to you in knowing how to ensure the outcome of any efforts in Service pack are maximized with professional results Your purchase includes access details to the Service pack self assessment dashboard download which gives you your dynamically prioritized projects ready tool and shows you exactly what to do next Your exclusive instant access details can be found in your book You will receive the following contents with New and Updated specific criteria The latest quick edition of the book in PDF The latest complete edition of the book in PDF which criteria correspond to the criteria in The Self Assessment Excel Dashboard Example pre filled Self Assessment Excel Dashboard to get familiar with results generation In depth and specific Service pack Checklists Project management checklists and templates to assist with implementation INCLUDES LIFETIME SELF ASSESSMENT UPDATES Every self assessment comes with Lifetime Updates and Lifetime Free Updated Books Lifetime Updates is an industry first feature which allows you to receive verified self assessment updates ensuring you always have the most accurate information at your fingertips [Iseries Navigator For Programmers](#) ,2004-08 iSeries Navigator is now one of the most powerful tools available to iSeries Programmers With a mastery of iSeries Navigator you can shorten your learning curve for acquiring new skills like working with the Integrated File System and SQL iSeries Navigator for Programmers was developed by Paul Touhy specifically for iSeries programmers The training is self paced and comes with a

CD containing all code used This training is also a useful desktop reference you ll turn to time and again Most importantly youll learn to do things you simply cant do on Green Screens HERE IS WHAT YOU WILL LEARN How to get a graphical view of your database with Database Navigator How to manage Triggers How to manage and work with SQL constraints How to perform the GUI equivalent of WRKSPLF DSPMSG WRKUSRJOB etc When to use the GUI interface and when green screen is still best How to access the IFS from Windows How to manage the IFS with iSeries Navigator How to get the equivalent of Network Neighborhood on green screen How to use iSeries Navigator to manage the database without becoming an expert in SQL When to use SQL and when to use DDS How to use GUI interfaces to create tables indexes and views How to create User Defined Functions the most powerful features available through the database Easy ways to get started with SQL
