Islands Nature And Culture Earth:

Islands and Captivity in Popular Culture Laura J. Getty, 2021-07-14 The choices that individuals make in moments of crisis can transform them By focusing on fictional characters trapped on fictional islands the book examines how individuals react when forced to make hard choices within the liminal space of a prison island At stake is the perception of choice do characters believe that they have the power to choose or do they think that they are at the mercy of fate The results reveal certain patterns psychological historical social and political that exist across a variety of popular public cultures and time periods This book focuses on how the interplay between liminality and the Locus of Control theory creates dynamic sites of negotiated meaning This psychological concept has never before been used for literary analysis Offered here as an alternative to the defects of Freudian psychology the Locus of Control theory has been proven reliable in thousands of studies and the results have been found with few exceptions to be consistent in both women and men That consistency is explored through close readings of islands found in popular culture books films and television shows with suggestions for future research

Islands of Hope Paul D'Arcy, Daya Dakasi Da-Wei Kuan, 2023-05-25 In the Pacific as elsewhere indigenous communities live with the consequences of environmental mismanagement and over exploitation but rarely benefit from the short term economic profits such actions may generate within the global system National and international policy frameworks ultimately rely on local community assent Without effective local participation and partnership these extremely imposed frameworks miss out on millennia of local observation and understanding and seldom deliver viable and sustained environmental cultural and economic benefits at the local level This collection argues that environmental sustainability indigenous political empowerment and economic viability will succeed only by taking account of distinct local contexts and cultures In this regard these Pacific indigenous case studies offer islands of hope for all communities marginalised by increasingly intrusive and increasingly rapid technological changes and by global dietary economic political and military forces with whom they have no direct contact or influence

The Space of Culture - the Place of Nature in Estonia and Beyond Tiina Peil,2011 This volume sets out to construct a tentative bridge between the physical and perceived academic worlds between the understandings of culture and nature their spatiality and temporality by tackling the spatiality of culture phenomena across disciplinary boundaries The contributions are arranged around a general question of how humans organise the spaces in which they live The book is divided according to three themes the humanities and ecosemiotic approach to nature constructing nature and examining environmental and landscape change The first provides an historical review of the humanities and expands on the more theoretical themes The second section discusses some ways in constructing wild nature with specific examples The final one illustrates the changes that various cultures have brought about in the environment examining landscapes and domestication The space of culture and the place of nature in various cultures are discussed critically throughout the volume in a way that challenges their ontological separations and invites to discuss culture nature relationships on a more balanced basis *The Earth and Its Inhabitants ...: The north-east Atlantic, islands of the north Atlantic, Scandinavia, European islands of the Arctic ocean, Russia in Europe* Elisée Reclus,1883 *Earth Journal, 1993* Buzzworm Magazine,Buzzworm Magazine Editors Staff,1992 Explores the earth diary ozone depletion population and regional reports Has food helath cars urban ecology in this reference work **Nature** Sir Norman Lockyer,1924 *Rewilding the Islands* James W.
