Evans, 2016 Injury to patients and nurses who utilize manual lifting and transfer techniques is a significant problem in today s healthcare environment Nurses suffer injuries from manual patient handling which can lead to career limiting ending injuries for nurses The purpose of this project was to gain a better understanding of the frontline nurse experience in the clinical setting today and determine what leads them to utilize workarounds in the care of the patient The goals were to identify best practice evidence through research and use the evidence to improve the utilization of safe patient handling SPH equipment and devices Establish a culture that embraces the use of the SPH program Reduce injuries to patients and clinicians through elimination of manual handling techniques The objectives were to use nursing focus groups structured observations and a questionnaire to determine what change was needed to decrease injuries and increase utilization of the SPH program review

systems and processes that hinder a safe working environment and discover the complexities nurses face in patient care setting. Thereby gaining a better understanding of nursing knowledge levels and knowledge deficits that prohibit appropriate SPH equipment use and identification of obstacles that prohibit lifting and transferring patients safely. Evaluation methods included equipment usage and a decrease in musculoskeletal injuries related to the use of proper body mechanics and lifting techniques with SPH equipment and devices. Without the completion of this project, the future clinical would be continued incidence of manual handling injuries, lost and restricted work days and continued avoidable costs to patients, nurses and the organization.

The Great Ormond Street Hospital Manual of Children's Nursing Practices Susan Macqueen, Elizabeth Anne Bruce, Faith Gibson, 2012-04-20. Clinical skills are a fundamental aspect of nursing care of children and young people. The Great Ormond Street Hospital Manual of Children's Nursing Practices is an evidence-based manual of practical skills in children's nursing which builds on the extensive expertise developed at Great Ormond Street Hospital. It encompasses all aspects of children's nursing from the most basic aspects of everyday practice to advanced practice in high dependency and intensive care to provide a comprehensive resource for all qualified nurses, students and other health care professionals involved in caring for children both in the hospital and the community setting. Children's and young people's nursing presents unique challenges. The Great Ormond Street Hospital Manual utilises the latest clinical research and expert clinical knowledge to address these challenges and provides the underlying theory and evidence for nursing care of children. It provides a definitive guide to clinical skills, procedures in children's and young people's nursing which enables nurses working with children and young people to practice confidently and deliver clinically effective, family-centred care. Key features: Offers access to clinical procedures developed through the extensive expertise from Great Ormond Street Hospital. Contains evidence-based recommendations for expert care. Encompasses all aspects of children's care. Contains procedures, guidelines, students can rely on and effectively use in practice following qualification. Highlights specific needs of neonates and adolescents. Placed in the context of inter-disciplinary care of the child. Includes the rationale for each procedure, the why as well as how. Information presented in a similar way to The Royal Marsden Manual of Clinical Nursing Procedures, offering continuity to those working in both adult and paediatric settings. This title is also available as a mobile App from MedHand Mobile Libraries. Buy it now from iTunes or the MedHand Store.
