**Manual of Romance Morphosyntax and Syntax** Andreas Dufter, Elisabeth Stark, 2017-09-25 This volume offers theoretically informed surveys of topics that have figured prominently in morphosyntactic and syntactic research into Romance languages and dialects We define syntax as being the linguistic component that assembles linguistic units such as roots or functional morphemes into grammatical sentences and morphosyntax as being an umbrella term for all morphological relations between these linguistic units which either trigger morphological marking e g explicit case morphemes or are related to ordering issues e g subjects precede finite verbs whenever there is number agreement between them All 24 chapters adopt a comparative perspective on these two fields of research highlighting cross linguistic grammatical similarities and differences within the Romance language family In addition many chapters address issues related to variation observable within individual Romance languages and grammatical change from Latin to Romance

**Manual of Sperm Retrieval and Preparation in Human Assisted Reproduction** Ashok Agarwal, Ahmad Majzoub, Sandro C. Esteves, 2021-06-10 Obtaining good quality sperm for in vitro fertilization ICSI or for cryopreservation can be a major problem if a man suffers from medical conditions that preclude normal collection Major advances in sperm retrieval and preparation techniques have been witnessed in recent years allowing a better understanding of the contribution of the sperm to a couple's fertility This Manual is a complete guide to sperm retrieval methods performed for men with azoospermia Covering all the basic and advanced steps for implementation of these procedures the Manual includes descriptions of the underlying science along with detailed practical advice on methods including tips for optimizing outcomes and trouble shooting using an evidence based approach This will be an invaluable resource for andrologists urologists embryologists male fertility specialists gynecologists and other healthcare workers practising reproductive medicine It is particularly valuable for reproductive laboratory personnel wishing to refine or develop technique and improve outcomes and for IVF Quality Managers

*Manual of Romance Word Classes* Anna-Maria De Cesare, Giampaolo Salvi, 2024-09-02 Word classes are linguistic categories serving as basis in the description of the vocabulary and grammar of natural languages While important publications are regularly devoted to their definition identification and classification in the field of Romance linguistics we lack a comprehensive state of the art overview of the current research This Manual offers an updated and detailed discussion of all relevant aspects related to word classes in the Romance languages In the first part word classes are discussed from both a theoretical and historical point of view The second part of the volume takes as its point of departure single word classes described transversally in all the main Romance languages while the third observes the relevant word classes from the point of view of specific Romance based varieties The fourth part explores Romance word classes at the interface of grammar and other fields of research The Manual is intended as a reference work for all scholars and students interested in the description of both the standard major Romance languages and the smaller lesser described Romance based

varieties Manual of Romance Phonetics and Phonology Christoph Gabriel,Randall Gess,Trudel Meisenburg,2021-11-22 This handbook is structured in two parts it provides on the one hand a comprehensive synchronic overview of the phonetics and phonology including prosody of a breadth of Romance languages and focuses on the other hand on central topics of research in Romance segmental and suprasegmental phonology including comparative and diachronic perspectives Phonetics and phonology have always been a core discipline in Romance linguistics the wide synchronic variety of languages and dialects derived from spoken Latin is extensively explored in numerous corpus and atlas projects and for quite a few of these varieties there is also more or less ample documentation of at least some of their diachronic stages This rich empirical database offers excellent testing grounds for different theoretical approaches and allows for substantial insights into phonological structuring as well as into incipient ongoing or concluded processes of phonological change The volume can be read both as a state of the art report of research in the field and as a manual of Romance languages with special emphasis on the key topics of phonetics and phonology
