Cultural Rights While the obligation of states to uphold this right is clear the extent of corporate responsibility legally and in stakeholder expectations remains unclear This book fills that gap by advocating for a strategic and context aware approach to corporate health obligations in Africa It emphasizes that such responsibilities should stand apart from the capacity or political will of states to fulfill their own human rights commitments The book gathers contributors from diverse countries and disciplines such as law political science ethics and medicine It examines whether and how corporations businesses and other private entities can be held to binding human rights duties especially concerning the right to health It also discusses how these duties might be implemented in African settings through policies regulations public health programs and corporate accountability systems A distinctive feature of the book is its engagement with African intellectual traditions to strengthen the normative concept of corporate responsibility It also emphasizes the importance of shared responsibility between public and private actors in addressing structural health challenges on the continent The Human Right to Health and Corporate Responsibility in Sub Saharan Africa is a timely academic and research resource for scholars and students in law philosophy ethics business public health and the social sciences It is also of interest to policymakers NGOs and human rights advocates seeking to align corporate conduct with fundamental human rights in African settings
