What Would You Do Alone in a Cage with Nothing But Cocaine? Hanna Pickard,2026-01-06 A revolutionary new paradigm for understanding addiction Why do people with addiction use drugs self destructively Why don t they quit out of self concern Why does the rat in the experiment alone in a cage press the lever again and again for cocaine to the point of death In this pathbreaking book Hanna Pickard proposes a new paradigm for understanding the puzzle of addiction For too long our thinking has been hostage to a false dichotomy either addiction is a brain disease or it is a moral failing Pickard argues that it is neither and that both models stifle addiction research and fail people who need help Drawing on her expertise as an academic philosopher and her clinical work in a therapeutic community Pickard explores the meaning of drugs for people with addiction and the diverse factors that keep them using despite the costs People use drugs to cope with suffering but also to self harm or even to die Some identify as addicts while others are in denial or struggle with cravings and self control Social cultural and economic circumstances are crucial to explaining addiction but brain pathology may also matter By integrating addiction science with philosophy clinical practice and the psychology and voices of people with addiction themselves Pickard shows why there is no one size fits all theory or ethics of addiction The result is a heterogeneous and humanistic paradigm for understanding and treating addiction and a fresh way of thinking about responsibility blame and relationships with people who use drugs *Bearing Manual* ,1940 *Corpus Juris ...
