Food Outlook - Biannual Report on Global Food Markets Food and Agriculture Organization of the United Nations, 2018-11-09 *Food Outlook* analyses trends and developments in the markets for cereals, the oilseeds complex, sugar, meat, dairy and fish products. The November edition also offers a detailed analysis of the cassava markets and the protracted decline in international coffee prices. An additional feature article analyses the recent conditions in the global markets for bananas and major tropical fruits where world trade is foreseen to surge by 18 percent from last year. The outlook for global supplies of agricultural commodities in the 2018/19 marketing season remains broadly in line with earlier expectations. While the weather had some impact on crop prospects, the overall production at global level did not change significantly from the forecasts published in the July issue of *Food Outlook*. Beyond weather-induced revisions, the latest FAO revisions take into consideration the mounting uncertainties regarding trade policies as well as the changes in exchange rates and rising energy prices. *The Statesman's Yearbook 2016* Nick Heath-Brown, 2017-02-07 Now in its 152nd edition, *The Statesman's Yearbook* continues to be the reference work of choice for accurate and reliable information on every country in the world.
