January 2014 C2 Paper International:

European Space Policy Thomas Hoerber, Paul Stephenson, 2015-09-25 Space policy is at the cutting edge of current EU policy developments and is a fascinating object of study involving multiple and diverse actors. It is also an original and contemporary lens for studying European policy making. This book explores advances in European space policy and their significance for European integration. Using a framing methodology, it addresses central questions in European studies in order to form an interdisciplinary bridge between current research in space policy and contemporary European political studies. It assesses the interests of EU institutions in space and how these institutions perceive space policy. Furthermore, it demonstrates that space is a cross-cutting policy domain affecting a diverse range of EU policy fields such as security, transport and migration, and underpinning the 21st century European and global economy. In doing so, this volume firmly locates space policy in the field of European Studies. This innovative volume will be of key interest to students and scholars of a range of policy areas including common foreign and security policy, technology policy, transport policy, internal market policies, environmental policy, development aid and disaster risk management, as well as the EU institutions. **Indonesia's Ascent** C. Roberts, A. Habir, L. Sebastian, 2015-03-10 This volume explores the domestic and transnational considerations associated with Indonesia's ascent, referring to its rise in terms of hard and soft power and its likely trajectory in the future. The range of contributors analyse economic resources, religious harmony, security, regional relations, leadership and foreign policy. Long-term investment and the Sustainable Company: a stakeholder perspective. Vol. III Sigurt Vitols, 2015-09-16 The onset of the Great Financial Crisis in 2007/8 has triggered a widespread debate about the causes and the social and environmental consequences of the lack of long-term investment around the world. This volume, the third in the Sustainable Company book series produced by the GOODCORP network of academic and trade union experts on corporate governance, presents a stakeholder approach to the problem. The analysis and policy prescriptions presented here go beyond mainstream economic analysis by highlighting the need for major changes in the way resources are saved, distributed and invested in the interests of a sustainable and just economy and society. Individual chapters explore different dimensions of the problem of short-termism and possible policy responses. Key themes in this volume include the state of the debate on long-term investment in Europe, increasing worker voice in pension fund investment and implementing financial transaction taxes to discourage financial market speculation. Policy proposals beyond the mainstream include strengthening worker participation rights, including the right to non-financial information from companies, and using international investment treaties to support social and environmental standards. **Encyclopedia of Automotive Engineering**, 2015-03-23 Erstmal eine umfassende und einheitliche Wissensbasis und Grundlage für weiterführende Studien und Forschung im Bereich der Automobiltechnik. The Europeanization of Turkish Public Policies Aylin Güney, Ali Tekin, 2015-09-16 Turkey's candidacy for membership of the European Union has had mixed effects on its public policies The initial degree of cohesion between EU and Turkish national policies practices and institutions has varied by the policy field in question leading to a complex amalgam of fit and misfit between the two actors Their interaction in different policy areas has had direct influence both on Turkey's accession to the EU and its own national reform process With accession negotiations stalled and Turkey's relationship with the EU increasingly tenuous it is vital to take stock of the extent to which Turkey and the EU are aligned in key policy areas The Europeanization of Turkish Public Policies A Scorecard is the first comprehensive work focusing on the impact of the EU accession process upon Turkey's public policies between 1999 and 2014 Complementing the authors' earlier volume Europeanization of Turkey Polity and Politics it brings together leading specialists to provide key analyses of the impact of Europeanization on specific areas of Turkey's public policy Each chapter applies a core analytical framework to examine a separate policy field resulting in a consistent and comprehensive volume on Turkey EU relations With its focused structure and extensive coverage concluding with a scorecard enabling informed assessment of the impact of Europeanization on Turkey's public policy areas this book provides a one stop resource for scholars and students alike A timely and informed assessment of the dynamics and outcome of the Europeanization of an EU candidate country's major public policy areas this book represents an essential resource for those interested in EU Turkey relations the
