Japan Alcoholism And Masculinity Suffering Sobriety In Tokyo

Blai Guarné, Paul Hansen

Japan Alcoholism And Masculinity Suffering Sobriety In Tokyo:

Japan, Alcoholism, and Masculinity Paul A. Christensen, 2014-12-11 Depictions of an alcohol saturated Japan populated by intoxicated salarymen beer dispensing vending machines and a generally tolerant approach to public drunkenness typify domestic and international perceptions of Japanese drinking Even the popular definitions of Japanese masculinity are interwoven with accounts of personal alcohol consumption in public settings gender norms that exclude and marginalize the alcoholic And yet the alcoholic also exists in Japan and exists in a manner revealing of the dominant processes by which alcoholism and addiction are globally influenced understood and classified As such this book examines the ways in which alcoholism is understood accepted and taken on as an influential and lived aspect of identity among Japanese men At the most general level it explores how a subjective idea comes to be regarded as an objective and unassailable fact Here such a process concerns how the culturally and temporally specific treatment methodology of Alcoholics Anonymous upon which much of Japan's other major sobriety association Danshukai is also based has come to be the approach in Japan to diagnosing treating and structuring alcoholism as an aspect of individual identity In particular the gendered consequences how this process transpires or is resisted by Japanese men are considered as they offer substantial insight into how categories of illness and disease are created particularly the ramifications of dominant forms of such categorizations across increasingly porous cultural borders Ramifications that become starkly obvious when Japan's persistent connection between notions of masculinity and alcohol consumption are considered from the perspective of the sober alcoholic and sobriety group member

Drunk Japan Mark D. West, 2020-03-11 In *Drunk Japan* Mark D West relies on an examination of thousands of Japanese court opinions to describe the role of alcohol in Japanese society He turns conventional wisdom about Japanese law on its head but focuses on alcohol and particularly intoxication in Japanese law He covers virtually every aspect of Japanese drinking life including what certain drinks mean what kinds of activity take place in a wide range of drinking establishments how drunk people are expected to behave how sober people are expected to take care of them how the drunk are punished or not why railway companies sue the heirs of drunk people who fall on the tracks to their deaths and who those people are passed out on the sidewalks

Escaping Japan Blai Guarné, Paul Hansen, 2017-10-12 The idea that Japan is a socially homogenous uniform society has been increasingly challenged in recent years This book takes the resulting view further by highlighting how Japan far from singular or monolithic is socially and culturally complex It engages with particular life situations exploring the extent to which personal experiences and lifestyle choices influence this contemporary multifaceted nation state Adopting a theoretically engaged ethnographic approach and considering a range of escapes both physical and metaphorical this book provides a rich picture of the fusions and fissures that comprise Japan and Japaneseness today

Handbook of Global Urban Health Igor Vojnovic, Amber Pearson, Gershim Asiki, Geoff DeVerteuil, Adriana Allen, 2019-05-09 Through interdisciplinary and multidisciplinary perspectives and with an emphasis on exploring patterns as

well as distinct and unique conditions across the globe this collection examines advanced and cutting edge theoretical and methodological approaches to the study of the health of urban populations Despite the growing interest in global urban health there are limited resources available that provide an extensive and advanced exploration into the health of urban populations in a transnational context This volume offers a high quality and comprehensive examination of global urban health issues by leading urban health scholars from around the world The book brings together a multi disciplinary perspective on urban health with chapter contributions emphasizing disciplines in the social sciences construction sciences and medical sciences The co editors of the collection come from a number of different disciplinary backgrounds that have been at the forefront of urban health research including public health epidemiology geography city planning and urban design The book is intended to be a reference in global urban health for research libraries and faculty collections It will also be appropriate as a text for university class adoption in upper division under graduate courses and above The proposed volume is extensive and offers enough breadth and depth to enable it to be used for courses emphasizing a U S or wider Western perspective as well as courses on urban health emphasizing a global context *Hokkaido Dairy Farm* Paul

Hansen,2024-02-01 *Hokkaido Dairy Farm* offers a historical and ethnographic examination of the rapid industrialization of the dairy industry in Tokachi Hokkaido It begins with a history of dairy farming and consumption in Hokkaido from a macro perspective mapping the transition from survival to subsistence and then from mixed family farms to monoculture and mega industrial operations It then narrows the focus to examine concrete changes in a Tokachi area dairying community that has undergone rapid sociocultural upheaval over the last three decades with shifts in human relationships alongside changes in human and cow connections through new technologies In the final chapters the scope is further narrowed to a detailed history and ethnography of a single industrializing dairy farm and the morphing cast of individuals attached to it centering on their idiosyncratic searches for economic social and even ontological security in what is popularly considered a peripheral region and industry The culmination of over fifteen years of ethnographic policy and historical research *Hokkaido Dairy Farm* argues that the dairy industry in Japan has always been entwined with notions of Otherness and security seeking notably in terms of frontiers

Reviewing **Japan Alcoholism And Masculinity Suffering Sobriety In Tokyo**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence. Its capacity to evoke emotions, stimulate contemplation, and stimulate metamorphosis is actually astonishing. Within the pages of "**Japan Alcoholism And Masculinity Suffering Sobriety In Tokyo**," an enthralling opus penned by a very acclaimed wordsmith, readers embark on an immersive expedition to unravel the intricate significance of language and its indelible imprint on our lives. Throughout this assessment, we shall delve into the book's central motifs, appraise its distinctive narrative style, and gauge its overarching influence on the minds of its readers.
