## Japanese Continuers Board Of Studies:

*Languages and Identities in a Transitional Japan* Ikuko Nakane, Emi Otsuji, William S. Armour, 2015-08-20 This book explores the transition from the era of internationalization into the era of globalization of Japan by focusing on language and identity as its central themes. By taking an interdisciplinary approach covering education, cultural studies, linguistics and policy making, the chapters in this book raise certain questions of what constitutes contemporary Japanese culture, Japanese identity and multilingualism and what they mean to local people including those who do not reside in Japan but are engaged with Japan in some way within the global community. Topics include the role of technology in the spread of Japanese language and culture, hybrid language use in an urban context, the Japanese language as a lingua franca in China and the identity construction of heritage Japanese language speakers in Australia. The authors do not limit themselves to examining only the Japanese language or the Japanese national cultural identity but also explore multilingual practices and multiple fluid identities in a transitional Japan. Overall, the book responds to the basic need for better accounts of language and identity of Japan, particularly in the context of increased migration and mobility.

*Culture and Foreign Language Education* Wai Meng Chan, Sunil Kumar Bhatt, Masanori Nagami, Izumi Walker, 2015-07-31 The teaching of culture and interculturality is today viewed as an integral part of foreign language education. This book presents insights from recent research on the role of culture in second foreign and heritage language education. It contains 14 chapters including an introductory chapter that discusses diachronically the evolving notion of culture and how the sociocultural view of culture as a complex and dynamic concept informs language teaching and language learning research. The chapters following the introduction are organised in four parts focusing on: 1. the teacher's role in integrated language and culture learning; 2. the interrelationship between culture, identity and language learning and use; 3. the effect of culture on learner characteristics which impact language learning processes and outcomes; and 4. curriculum development aimed at fostering language and culture learning. The chapters in Parts 1 to 3 present contributions from current research, either in the form of the authors' original studies or comprehensive reviews of relevant essential research which bears important implications for curricular practice in foreign language and language teacher education. This close link between research, theory and practice is also maintained in the two chapters in Part 4 which present developmental projects based on well-grounded theoretical frameworks.
