Small-Scale Research in Primary Schools Kimberly Safford, Mary Stacey, Roger Hancock, 2013-09-13 *Small scale Research in Primary Schools* provides guidance and inspiration for students and practitioners undertaking practical investigations and workplace enquiry in the primary school. The 30 chapters are carefully selected to illustrate a range of approaches to educational enquiry and are particularly relevant to the range of practitioners who may carry out school based research as part of a course of study: teachers, trainee and newly qualified teachers, teaching assistants, learning mentors and staff who support children with individual needs. Research topics addressed in chapters include children's learning in the core curriculum subjects as well as themes central to teaching and learning. Important concepts and terminology are highlighted throughout. More specifically, areas of research explored include Play, Special Educational Needs, Working with parents and families, English as an Additional Language, Creativity, Language development, Learning environments. *Small scale Research in Primary Schools* provides a straightforward, highly accessible introduction to enquiry approaches and research methodologies and the questions and challenges adults in schools encounter about children's learning. It shows how small scale research in primary education can impact on professional thinking and learning. It aims to provide constructive support for students and practitioners in extending their knowledge and understanding through workplace enquiry.

Improving Literacy at KS2 and KS3 Andrew Goodwyn, 2002-06-28 *Improving Literacy at KS2 and KS3* is all about primary/secondary transfer, seen mostly through the eyes of secondary teachers but with some interesting contributions from middle school staff who know the territory well. This book sees the NLS's influence on primary practice as generally benign but takes a more jaundiced view of the implications for secondary teaching, especially in its central chapter 'Evidence from experienced practitioners'. There are, however, many useful suggestions for reshaping and adapting parts of the strategy, including chapters on classroom literacy and everyday life and literacy and drama which consider ways of relating learning to the wider culture beyond school, including screen based literacy. There is also a review of the language across the curriculum movement and a chapter on subject literacies which has left me with an abiding admiration for geography teachers as lone voices of dissent.

Sue Palmer, TES Teacher. This book will help students and practising teachers to understand the issues surrounding literacy, the place of transition in pupils' lives and to feel confident in handling The National Literacy Strategy. The book focuses on the crucial period when children complete primary schooling and begin in secondary schools. It examines the issue of transition from one phase to the other and specifically the nature of literacy at this period. The authors contrast the whole school approach of primaries to the very subject specific nature of secondary teaching. The authors set the NLS in perspective, reviewing earlier movements such as Language across the Curriculum and the NLS itself. They offer a critique of the strategy and outline its strengths and weaknesses. The book sets out evidence of the way schools are reacting to the NLS and what classroom teachers and their pupils think. Its coverage is comprehensive and includes focus on primary/secondary

and middle schools the teaching of literacy and English the role of ICT as well as important areas such as media education drama and modern foreign languages This book will be useful to education students and to practicing teachers in primary and secondary schools **Improving Writing at KS2 getting it right for the boys and girls** ,2001 **Literacy Is Not Enough** Brian Cox,1999-02-15 The last two decades have witnessed a considerable reaction to the progressive utopianism of the 1960s In education debates all over the English speaking world the talk is now of competition back to basics league tables the demands of the market This reaction has gone too far Children need to be helped not only to achieve basic literacy but to read critically to discriminate to evaluate to enjoy great literature It is not enough to help children to achieve literacy if this simply means they read only sufficiently well to be seduced by advertisers and tabloid newspapers The essays in this book are by people engaged in the promotion of English be they primary teachers or university lecturers novelists or poets publishers or social commentators politicians or professors *Sat Attack Maths* Anne Frobisher,Len,2004-12 SAT Attack Maths is the perfect 10 week revision programme for both independent and whole class maths teaching **Primary History** ,2005 *Testing and Assessment* Great Britain.
