The correct answer can also be found by adding the area of the triangle and the rectangle rather than using the area of the trapezium.                                                                                                                                                           |
| <b>2 c</b> | Speed = $\frac{308}{20} = 15.4 \text{ m s}^{-1}$                                                                                                                                                                                                                                                                                                                                                                                           | A1             |                                                                                                                                                                                                                                                                                                                                                                                                       |
