Penton KTM joint venture motorcycles the Berkshire 100 and Six Day 125 models powered by Sachs engines arrived in the USA in 1968 The use of a Sachs powertrain was an obvious choice for KTM who without any in house engine capability had been using Sachs engines in their moped scooter and road going motorcycles since the early 1950 s While the Sachs powered off road machines established a solid foothold for Penton motorcycles John began to pressure KTM to construct an engine of their own design The first of the Penton models powered by KTM engines debuted in 1972 as the 175cc Jackpiner followed in 1973 by the 250cc Hare and the 400cc Mint in 1974 See Workshop Manual ISBN 9781588502933 for Sachs powered Pentons However KTM was also marketing identical KTM badged bikes as MC Motocross and GS Gelande Sport models on an international level Obviously this did not sit well with John and the situation worsened when those same KTM badged bikes began to show up on the west coast through a different USA importer The 1976 MC 5 and Cross Country and the 1977 GS 6 Pentons were also badged and sold as KTM s and the association between John and KTM continued to deteriorate In the interim KTM had been pressuring John to relinquish control of his distribution rights and in 1978 KTM purchased both the distribution rights and the company infrastructure and the Penton brand was no more A sad end to an era of great innovation by John Penton however his motorcycles and the identical KTM versions are regarded as some of the best ever to come out of the 1970 s off road motorcycle phenomenon and are highly collectible and still used in vintage events by enthusiasts worldwide Unfortunately owners of these early Penton motorcycles are subjected to considerable confusion surrounding the appropriate selection of the multitude of originals and reprints of the various manuals and parts lists that have recently flooded the marketplace We encourage you to exercise caution when purchasing a manual for your motorcycle or automobile as many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that have no idea what they are selling Many are nothing more than poor quality comb bound or ring bound photocopies that are scanned and printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned used or even refurbished In addition they are often advertised for the incorrect series and or model years CZ 125 & 175

Brown Workshop Manual originally published in the US in 1947 It includes repair and maintenance data for rigid frame pre war single cylinder SV OHV and twin cylinder OHV Triumph motorcycles from 1935 to 1939 Much more detailed than the owner s handbook this manual provides the information necessary for the overhaul of engines carburetors clutches gear boxes forks electrics etc essential information for the enthusiast owner or restorer of these classic motorcycles Measuring 5 5 x 8 5 with 96 pages and 56 illustrations Applicable To The Following Models L2 1 2 1 2 5 3 1 3 2 3 5 5 1 5 2 5 3 5 4 5 5 10 6 1 Tiger 70 Tiger 80 Tiger 90 2H Tiger 70C 3S 3H Tiger 80C 5H Tiger 90C 6S 2HC 3SC 5T Speed Twin 5S and T100 Tiger 100 Includes Maintenance And Repair Data For The Following Engines Single Cylinder 250cc OHV 350cc SV 350cc OHV 500cc SV 500cc OHV 550cc SV and 600cc SV Twin Cylinder 500cc OHV and 650cc OHV **Yamaha RD and DT 125 LC Owners Workshop Manual** Jeremy Churchill,Pete Shoemark,1985 *Triumph Motorcycles Illustrated Workshop Manual 1945-1955* Floyd Clymer,2007-02-01 1945 to 1955 and later Models An illustrated workshop manual covering Triumph twin cylinder motorcycles from 1945 to 1955 This is a faithful reproduction of the Factory Workshop Manual No 11 originally published in the US by Floyd Clymer The major revision in the later pre unit factory manuals was the addition of technical specifications for the T120 Bonneville 1959 Unfortunately those revisions also included the deletion of repair data for rigid frame sprung hub and 3T models This makes the Factory Workshop Manual No 11 the most comprehensive workshop manual available for pre unit twin cylinder Triumph motorcycles up to and including 1962 models as it includes repair and maintenance data for the full line of rigid frame sprung hub swing arm and 350cc models Much more detailed than the owner s handbook this manual provides the information necessary for the overhaul of engines gear boxes frames swing arm forks wheels hubs carburetors electrics etc essential information for the enthusiast owner or restorer of these classic motorcycles Size 5 5 x 8 5 with 224 pages and 84 illustrations includes 8 pages of detailed technical specification charts and both an illustration index and a comprehensive index of contents Applicable to the following models 5T Speed Twin T100 Tiger 100 TR5 Trophy 6T Thunderbird T110 Tiger 110 and 3T De Luxe Includes maintenance and repair data for the following engines Twin Cylinder 350cc OHV 500cc OHV and 650cc OHV **Puch Maxi Owner's Workshop Manual** Jeff Clew,1973-01-01 Puch Maxi Jeff Clew,1988 CZ 125cc - 250cc - 360cc - 380cc WORKSHOP MANUAL 1967-1974 SINGLE EXHAUST Floyd Clymer,2025-05-05 126 pages and profusely illustrated with more than 260 illustrations diagrams and charts size 8 250 x 10 750 inches Originally published by Floyd Clymer in 1969 with coverage for the 1969 and earlier 4 speed and 5 speed 250cc and 360cc models While this 2025 edition includes all of the data from the original publication it has also been expanded to include data for the 125cc and 380cc engines which extends the coverage through 1974 CZ motorcycles of this era were identified by a three digit Type number occasionally followed by a numerical suffix for example Type 984 9 The suffix number identifies model variations and or year of manufacture within each Type group Unfortunately the use of the Type number is extremely model specific and in order to eliminate any confusion the data included in this manual is

appropriate for the Single exhaust Pipe 4 speed and 5 speed CZ Motocross Enduro and Ruff Country models However for the sake of completeness the manual states that coverage includes the following model Types Type 984 125cc Motocross Type 968 250cc Motocross Single Pipe Type 980 250cc Motocross Type 988 250cc Enduro Type 969 360cc Motocross Single Pipe Type 981 380cc Motocross From 1964 to 1966 the Type 968 and Type 969 were available with Twin Pipe engines they are not covered in this manual However as many of the other mechanical components are shared with the Single Pipe machines this manual will also be of use to owners of those Twin Pipe models We encourage you to exercise caution when purchasing technical publications for your classic motorcycle or automobile as many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling Many are nothing more than poor quality digital comb bound or ring bound photocopies that are scanned or printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned used or even refurbished In addition they are often advertised for the incorrect series and or model years However VelocePress com has been publishing reprints of motorcycle and automobile manuals since 2003 and our publications have earned excellent reviews worldwide so you can be assured you are purchasing a quality product *Ducati Factory Workshop Manual* Ducati Meccanica,2008-07-01 A faithful reproduction of the Factory Workshop Manual originally published by Floyd Clymer in 1967 This fully illustrated manual covers the 160cc 250cc and 350cc narrow case Single Cylinder OHC series of Ducati motorcycles including the 160 Monza Junior 250 Monza 250GT 250 Mark 3 250 Mach1 250 Motocross and the 350 Sebring As expected from a factory publication this manual includes complete technical data and comprehensive detailed instructions for the repair and overhaul of all major and minor mechanical and electrical components making it an invaluable resource for collectors and restorers of these classic Ducati motorcycles It contains a comprehensive Technical Specification section for every variant by year for each model followed by a descriptive section of all major components Includes detailed repair and rebuild data for the Engine Clutch Transmission Ducati and Marzocchi Forks Rear Suspension Wheels Brakes and more It also includes comprehensive information on the Electrical and Ignition Equipment plus Wiring Diagrams There is adequate detailed text and illustrations to assist in major refurbishing such as an engine rebuild or even a complete mechanical renovation An essential addition to any Ducati Motor Cycle Enthusiast s library this book has been out of print and unavailable for many years and is becoming increasingly more difficult to find on the secondary market This is a must have reference for this series of Ducati motorcycles and we are pleased to be able to offer this reproduction as a service to all Ducati enthusiasts worldwide Haynes Ducati V-Twins, 71-77 Pete Shoemark,1977-01-01
