Preaching to Be Heard Lucas O'Neill,2019-02-13 If a sermon is preached in a church and no one is listening does it make a difference There are many expository preachers who forego dynamic delivery and many dynamic preachers who lose sight of faithfully communicating the biblical text Too often preachers feel they have to choose one or the other But dynamic delivery and faithful exposition are not mutually exclusive In Preaching to Be Heard

Lucas O Neill shows pastors that presenting engaging sermons that are biblically focused is not an impossibility In fact the key to commanding attention lies in the text itself Rather than relying on tricks or gimmicks his approach to sermon writing focuses on maintaining tension throughout while sticking close to the biblical text Using practical examples and a step by step method O Neill shows pastors how relying on the inherent anticipation within Scripture can lead to sermons that are powerful and heard

problems that are designed to teach all the nuances of the rules an enriched section on scientific evidence application of the rules to electronic evidence and appellate review of evidentiary rulings In addition the casebook incorporates the Supreme Court s recent Confrontation Clause decision in Crawford v Washington as well as pending proposed changes to Rules 404 408 606 and 609 The textbook is regularly supplemented with the 2008 09 Supplement including coverage of several key developments in evidence law including the U S Supreme Court s decisions in Davis v Washington and Giles v California addressing the Confrontation Clause as well as its decision in Sprint United Management Co v Mendelsohn addressing Rules 401 and 403 It also includes important lower court decisions including In re Grand Jury Subpoena Judith Miller applying Rule 501 to a claim evidence protected by a privilege for journalists U S v Curtin applying Rules 403 and 404 to sexually explicit materials contained on a PDA device U S v Washington addressing the applicability of the hearsay rule to computer generated data and People v Rawlins addressing the admissibility of laboratory reports when challenged on Confrontation Clause grounds It also includes the text and legislative history of Proposed Federal Rule 502 addressing waiver of the attorney client privilege and the work product doctrine A separate statutory supplement includes the federal rules of evidence and selected legislative history It was with great trepidation that I decided to try a new Evidence casebook which utilized a problem approach so my students could get some hands on experience in using the rules in a real life setting I knew that the switch would require me to do a lot more work than simply staying with the tried and ok but not so great and it has I m happy to report that I m thrilled I decided to put in the effort The book has a very good balance between cases notes and problems and it s theoretical yet straightforward The cases Nicolas uses are current and illustrate the principles memorably I expect that my students will do much better both on the final exam and in real life the true test as a result Prof Cynthia Ford University of Montana School of Law
