Labour Relations 2014 November Question Paper:

Marx and the Political Economy of the Media, 2015-09-29 More than 130 years after Karl Marx's death and 150 years after the publication of his opus magnum *Capital Critique of Political Economy* capitalism keeps being haunted by period crises The most recent capitalist crisis has brought back attention to Marx's works This volume presents 18 contributions that show how Marx's analyses of capitalism the commodity class labour work exploitation surplus value dialectics crises ideology class struggles and communism help us to understand media cultural and communications in 21st century informational capitalism Marx is back This book is a key resource on the foundations of Marxist Media Cultural and Communication Studies *Decisions and Orders of the National Labor Relations Board* United States. National Labor Relations Board, 2016-05 *Speaking Up, Speaking Out* Jessica Edwards, Meg McGuire, Rachel Sanchez, 2021-03-01 *Speaking Up Speaking Out* addresses the lived experiences of those working in the non tenure track faculty NTTF trenches through storytelling and reflection By connecting NTTF voices from various aspects of writing studies the collection offers fresh perspectives and meaningful contributions imagining the possibilities for contingent faculty to be valued and honored in educational systems that often do the opposite Challenging traditional ways of seeing NTTF the work contains multiple entry points to NTT life those with and without terminal degrees those with PhDs and those who have held or currently hold tenured positions Each chapter suggests tangible ways that writing departments and supporters can be more thoughtful about their policies and practices as they work to create more equitable spaces for NTTF *Speaking Up Speaking Out* considers the rhetorical power of labeling and asserts why contingent faculty for far too long have been compared to and against TT faculty and often encouraged to reach the same or similar productivity with scholarship teaching and service that TT faculty produce The myopic ideas about what is valued and whose position is deemed more important impacts contingent faculty in ways that as contributors in this collection share effect and affect faculty productivity emotional health and overall community involvement Contributors Norah Ashe McNalley Sarah Austin Rachel Azima Megan Boeshart Burelle Peter Brooks Denise Comer Jessica Cory Liz Gumm Brendan Hawkins Heather Jordan Nathalie Joseph Julie Karaus Christopher Lee John McHone Angie McKinnon Carter Dauvan Mulally Seth Myers Liliana M Naydan Linda Shelton Erica Stone Elizabeth Vincelette Lacey Wootton *Collective Bargaining Developments in Times of Crisis* Sylvaine Laulom, 2016-04-24 In many EU Member States the various economic crises of recent years provided grounds for a rarely equalled level of state intervention in the regulation of labour relations with an explicit aim the decentralisation of collective bargaining An extensive body of research summed up and analysed expertly in the chapters of this very important book reveals that the process of decentralisation has more often than not led to a situation where salaries and labour conditions are ever more frequently determined by direct negotiations between employer and employees with the State becoming the sole guarantor of employee protection even as it encourages decreasing labour costs to ensure that companies remain competitive The comparative

approach offered in this book adds to this synthesis by providing examples of specific recent developments in fourteen Member States and Turkey Among the numerous topics and issues that arise are the following opt out clauses that derogate unfavourably from sectoral agreement standards extension of the employer's unilateral decision making power memoranda of understanding imposed by the troika EU ECB and IMF and stand by arrangements imposed by the IMF However notwithstanding the strong emphasis on changing the structure of collective agreements by shifting the centre of gravity closer to the company research finds promise in the reconstituted support for sector level agreements increasingly found among very small businesses networked businesses and work via digital platforms This is the first book to take stock of the current state of collective bargaining in Europe It is an essential study for labour and employment law practitioners and an exemplary analysis of immeasurable value to policymakers and academics in the field

Changing Contexts and Shifting Roles of the Indian State Anthony P. D'Costa, Achin Chakraborty, 2019-04-26 This book critically discusses the changing relationship between the Indian state and capital by examining the mediating role of society in influencing developmental outcomes It theorizes the state's changing context allowing the discussion of its pursuit of contradictory economic and social welfare goals simultaneously Both structural and ideological factors are argued to contribute to a shifting context but the centrality of redistributive politics and the contradictions therein explain a lot of what the state does and cannot do The book also examines what the state aspires to do but structurally cannot accomplish either because of the scale of the problem or the dysfunctionality that sets in with continuous reforms The collection provides rich evidence on the contested forms of governance arising from changing contexts and shifting roles of the state Readers will benefit from this recasting of the Indian state in terms of the actual forms of intervention today Changing Contexts and Shifting Roles of the Indian State is a timely book At a time when the question of the role of the state in promoting more inclusive forms of development has never been more urgent this book provides a range of powerful and insightful case studies of how a changing Indian capitalism is impacting and in turn being impacted by the multi stranded role of the Indian state Patrick Heller Professor of Sociology and International Affairs Brown University Providence Since the early 1990s the Indian economy has moved away from a statist model of development to a more market oriented one However very little scholarship exists that attempts to analyse India's recent development experience from a political economy lens This book which is edited by two of India's reputed scholars in the political economy of development addresses this important gap in the literature It provides an insightful account of the role of the state and the market in India's economic resurgence in the last three decades The book also contributes to a fresh understanding of what is meant by a twenty first century developmental state in a globalised world The book will be valuable reading for all scholars of India as well as to researchers in the political economy of development Kunal Sen Director United Nations University World Institute for Development Economics Research UNU WIDER Helsinki This collection gives us a richer and more layered understanding of the Indian contemporary State Rather than see the State as an unchanging entity

with unchanging interests the book argues that the role of the State changes with the context and with the change in political regime Thus taking contradictory decisions such as greater dispossession of land from the peasantry and expansion of the universe of economic rights is explainable The argument is that we can have a better understanding when we see the Indian State as dealing with the ebb and flow of a democracy C Rammanohar Reddy Former Editor Economic and Political Weekly Mumbai *Critical Perspectives on Work and Employment in Globalizing India* Ernesto Noronha, Premilla

D'Cruz, 2017-03-30 This book showcases issues of work and employment in contemporary India through a critical lens serving as a systematic scholarly and rigorous resource which provides an alternate view to the glowing metanarrative of the subcontinent's ongoing economic growth in today's globalized world Critical approaches ensure that divergent and marginalized voices are highlighted promoting a more measured perspective of entrenched standpoints In casting social reality differently a quest for solutions that reshape current dynamics is triggered The volume spans five thematic areas subsuming a range of economic sectors India is a pre eminent destination for offshoring underscoring the relevance of global production networks Theme 1 Yet the creation of jobs has not transformed employment patterns in the country but rather accentuated informalization and casualization Theme 2 Indeed even India's ICT related sectors perceived as mascots of modernity and vehicles for upward mobility raise questions about the extent of social upgrading Theme 3 Nonetheless these various developments have not been accompanied by collective action instead there is growing evidence of diminished pluralistic employment relations strategies Theme 4 Emergent concerns about work and employment such as gestational surrogacy and expatriate experiences attest to the evolving complexities associated with offshoring Theme 5 **Unwinding**

Madness Gerald S. Gurney, Donna A. Lopiano, Andrew Zimbalist, 2016-12-13 A critical look at the tension between the larger role of the university and the commercialization of college sports Unwinding Madness is the most comprehensive examination to date of how the NCAA has lost its way in the governance of intercollegiate athletics and why it is incapable of achieving reform and must be replaced The NCAA has placed commercial success above its responsibilities to protect the academic primacy health and well being of college athletes and fallen into an educational ethical and economic crisis
