Églises et santé dans le Tiers Monde. Hier et aujourd'hui Jean Pirotte, Henri Derroitte, 2016-05-18 The fifteen papers presented here examine three centuries of close if sometimes ambiguous links between Christian mission and medicine The authors who include theologians historians sociologists physicians and representatives of major international health care organisations address themselves to such questions as How is one to assess the results of past missionary health care effort How are modern day Christian organisations to cope with the burden of institutions set up in the past What links should the Churches maintain with official medical organisations What position should the Churches take on the faith v healing debate begun by certain religious groups And how is one to lay the groundwork of a theology of health and healing The complexity of the issues outlined here can alas provide no easy answers
