Lake Norman Fishing Report:

A Report on the Fishing Survey of Lakes Albert and Kioga, March to July, 1928 Edgar Barton Worthington, 1929

Beneath the Surface Jake Bussolini, 2009-11-10 *Beneath the Surface* is an extension of the author's two previous books that offer the unique blend of science and sport. This book focuses on Lake Norman North Carolina but all of its information is useful to any fresh water fisherman. The author is considered a Sonar expert and this book is full of Sonar image photo interpretations to help those fishermen who have not developed the skill of using Sonar fish finders to improve their catch rate. The tips presented on catching the various species of fish resident to Lake Norman are useful for these species wherever they reside. Several myths about fishing are discussed and some of these myths are crushed by the Author with detailed back up information to support his contentions.

The Month of Their Ripening Georgann Eubanks, 2018-07-25 Telling the stories of twelve North Carolina heritage foods each matched to the month of its peak readiness for eating. Georgann Eubanks takes readers on a flavorful journey across the state. She begins in January with the most ephemeral of southern ingredients snow to witness Tar Heels making snow cream. In March she takes a midnight canoe ride on the Trent River in search of shad, a bony fish with a savory history. In November she visits a Chatham County sawmill where the possums are always first into the persimmon trees. Talking with farmers, fishmongers, cooks, historians, and scientists, Eubanks looks at how foods are deeply tied to the culture of the Old North State. Some have histories that go back thousands of years. Garlicky green ramps gathered in April and traditionally savored by many Cherokee people are now endangered by their popularity in fine restaurants. Oysters though are enjoying a comeback cultivated by entrepreneurs along the coast in December. These foods and the stories of the people who prepare and eat them make up the long standing dialect of North Carolina kitchens. But we have to wait for the right moment to enjoy them and in that waiting is their treasure.

Federal Energy Regulatory Commission Reports United States. Federal Energy Regulatory Commission, 2004-04 **Fishing the Great Lakes** Margaret Beattie Bogue, 2000 Examines the history of human use of the fish resources of the Great Lakes and analyzes the changing nature of the fish populations, especially those that became popular in the commercial markets.
