

## BIOLOGY LAB REPORT FORMAT

Biology labs must be either typed or written in blue or black pen.  
If written in pen, write only on one side of the paper.

**FORMAT:** The lab report should be divided into clearly labeled sections as defined below. The headings must be included. The sections should be formatted as they are on this sheet. Pages should be numbered according to the following format: Page 1 is the first page of the lab (not including the title page) and is numbered in the bottom center of the page; all additional pages should be labeled at the top center of each page. Neatness is important, so remember to leave spaces between sections. Format is included in the grade for each lab report.

**TITLE PAGE:** The title of the lab, your name and period. This page is NOT numbered.

### **I. AIM:**

- \* For every lab experiment, you must give an aim.
  - The aim should state the purpose of the experiment.
  - It may be written in the form of a question and shows what you hope to learn from the experiment.
- \* Some labs require you to write a hypothesis statement ("if, and, and then" format).
  - A hypothesis is a relationship between two variables (independent and dependent variables).
  - It must be testable.
  - A hypothesis is not a guess and should be based on prior knowledge.
  - Also identify other variables that you need to keep constant.

**II. Procedure:** Your procedure section should be written in such a way that a layman could correctly complete the lab using your list of materials and numbered procedure.

- \* **Materials** - All materials used to complete the laboratory should be listed in columns.
- \* **Procedure** -
  - Steps of the procedure should be numbered and listed.
  - Steps should be written in complete sentences with a noun and a verb.
  - Never use personal pronouns in the laboratory report.
  - The procedures should be realistic and control for variables.

**III. Results:** Present your results in an organized way.

- Give the results you found, not what you think you should have found!
- Drawings should follow the format given and colored pencils are encouraged. If you use drawings from the internet you need to correctly site the source.

## Lab Report In Biology:

**The Biology Lab Report Checklist** Sinha Pragati, Amazon.com (Firm), 2014 If your lab handout notes and research material are strewn all around you but you can't get yourself organized enough to start writing your report then this book is for you If the amount of information that you need to vet sort and edit in order to start writing is overwhelming you then this book is for you If it's 1 in the morning and your biology lab report is due at 10 but you don't even know where to begin then this book is for you THE BIOLOGY LAB REPORT CHECKLIST will make the process of writing lab reports less painful All you really need to do is spend an hour before and right after your lab to construct an outline that will help you organize your content in a logical fashion Then all you have to do while writing your report is fill in the blanks between related ideas make the language flow smoothly include figures graphs and charts for quick scanning and add a bibliography to properly credit your sources *Writing Undergraduate Lab Reports* Christopher S. Lobban, María Schefter, 2017-07-27 A practical guide to writing impactful lab reports for science undergraduates through the use of model outlines and annotated publications

The Impact of Rubric Use and Lab Report Performance in Biology Students Tori Allison Hellmann, 2012 The research topic chosen is related to the use of rubrics and how using a rubric for scoring lab reports might impact student performance on lab reports I also wanted to see if rubric use could improve their knowledge of science content as well I chose this as my topic because for the past 12 years as a science teacher I have noticed inadequacies in student performance on lab reports The students seem to enjoy the lab experiments but when it comes to the lab report there are some obvious deficiencies in lab report writing skills I have also noticed that students do not seem to make connections between the labs and the science content **Researching Writing** Joyce Kinkead, 2015-07-21 Researching Writing is an accessible informative textbook that teaches undergraduates how to conduct ethical authentic research in writing studies The book introduces students to the research approaches used most often and offers a course framework for professors creating or teaching research courses themselves Author Joyce Kinkead lays out the research process including finding and defining questions planning and starting the research Expository content introduces the language and methods of writing research and specific methods are demonstrated in published examples illustrating student work using student work and showing that it is possible for students to join the scholarly conversation in writing studies Other features include student activities instructor resources student resources and links to external content on journal websites digital publications YouTube and similar work The first ever textbook for research methods in writing studies for undergraduates Researching Writing takes a hands on approach that excites and engages students in the depth and complexities of research and will influence the creation of courses in new writing majors as the field continues to grow Nuclear Science Abstracts, 1974 NSA is a comprehensive collection of international nuclear science and technology literature for the period 1948 through 1976 pre dating the prestigious INIS database which began in 1970 NSA existed as a printed product Volumes 1 33 initially created by DOE's predecessor the U S

Atomic Energy Commission AEC NSA includes citations to scientific and technical reports from the AEC the U S Energy Research and Development Administration and its contractors plus other agencies and international organizations universities and industrial and research organizations References to books conference proceedings papers patents dissertations engineering drawings and journal articles from worldwide sources are also included Abstracts and full text are provided if available

**Successful Lab Reports** Christopher S. Lobban, MarLa Schefter, 1992-02-28 Shows science students how to write a clear and to the point laboratory report

WAC Partnerships Between Secondary and Postsecondary Institutions Jacob Blumner, Pamela B. Childers, 2016-03-22 Working with educators at all academic levels involved in WAC partnerships the authors and editors of this collection demonstrate successful models of collaboration between schools and institutions so others can emulate and promote this type of collaboration

Writing across Contexts Kathleen Yancey, Liane Robertson, Kara Taczak, 2014-05-15 Addressing how composers transfer both knowledge about and practices of writing Writing across Contexts explores the grounding theory behind a specific composition curriculum called Teaching for Transfer TFT and analyzes the efficacy of the approach Finding that TFT courses aid students in transfer in ways that other kinds of composition courses do not the authors demonstrate that the content of this curriculum including its reflective practice provides a unique set of resources for students to call on and repurpose for new writing tasks The authors provide a brief historical review give attention to current curricular efforts designed to promote such transfer and develop new insights into the role of prior knowledge in students ability to transfer writing knowledge and practice presenting three models of how students respond to and use new knowledge assemblage remix and critical incident A timely and significant contribution to the field Writing across Contexts will be of interest to graduate students composition scholars WAC and writing in the disciplines scholars and writing program administrators
