Labeled Map Of The Eastern Hemisphere:

Stitching the World: Embroidered Maps and Women's Geographical Education Professor Judith A Tyner, 2015-04-28 The period from the late eighteenth century until about 1840 coincided with major changes in educational theories and practices especially for girls and this book uses needlework maps and globes to chart a broader discussion of women's geographic education In this light map samplers and embroidered globes represent a transition in women's education from accomplishments in the eighteenth century to challenging geographic education and conventional map drawing in schools and academies of the second half of the nineteenth century
