The Relevance of Critical Citizenship Education in an African Context Elmarie Costandius, Freeman Odiboh, 2016-04-30 Critical citizenship is a multi faceted contemporary social political and educational issue being discussed from a wide range of disciplines and points of view Unusually this collection brings together scholars in the fields of theology art and design to ponder various levels and forms of education including early childhood interventions the rehabilitation of young offenders and the impact of homosexuality in Malawi on citizenship and the links with theological teachings The common ground that brought participants together was a mutual collaborative search for the relevance for the African context of the notion of citizenship education be it critical democratic responsible active or preferably all of these forms or aspects of citizenship brought together **Students Must Rise** Ann Heffernan, Noor Nieftagodien, Sifiso Mxolisi Ndlovu, Bhekizizwe Peterson, 2016-06-01 A detailed account of the incredibly influential Soweto Student Uprising of 1976 The Soweto Student Uprising of 1976 was a decisive moment in the struggle against apartheid It marked the expansion of political activism to a new generation of young activists but beyond that it inscribed the role that young people of subsequent generations could play in their country s future Since that momentous time students have held a special place in the collective imaginary of South African history Drawing on research and writing by leading scholars and prominent activists **Students Must Rise** takes Soweto 76 as its pivot point but looks at student and youth activism in South Africa more broadly by considering what happened before and beyond the Soweto moment Early chapters assess the impact of the anti pass campaigns of the 1950s of political ideologies like black consciousness as well as of religion and culture in fostering political consciousness and organisation among youth and students in townships and rural areas Later chapters explore the wide reaching impact of June 16th itself for student organisation over the next two decades across the country Two final chapters consider contemporary student based political movements including RhodesMustFall and FeesMustFall and historically root these in the long and rich tradition of student activism in South Africa 2016 marks the 40th anniversary of the 1976 June 16th uprisings This book rethinks the conventional narrative of youth and student activism in South Africa by placing that most famous of moments the 1976 students uprising in Soweto in a deeper historical and geographic context **The African Perspective of Sexual Orientation and Gender Identity in Higher Education** Mfundo Mandla Masuku, Mbongeni Shadrack Sithole, 2025-05-23 This book uses a deconstruction context to highlight the challenges faced by the LGBTQIA communities in African Higher Education The discursive approach adopted in the book is critical in enabling the editors and their authors space to articulate the subtle problematic and context sensitive issues that drive exclusionary and unequal practices that students face in campus life The book goes on to present an advanced argument for integrating African epistemologies such as Ubuntu with social justice frameworks to foster cultural competence and diversity in higher education **Gaffney's Local Government in South Africa** ,2009 **Joernaal Vir Eietydse Geskiedenis** ,2007 Robben Island and Prisoner
