LOOKING THROUGH THE LENS Dr. Martin Roy Edward, 2024-05-06 This book Looking through the Lens Scientific Enrichment of our Children mainly deals with the methods of teaching science and the problems faced therein The greatest

plight of our Science Education in the country is that since Independence we haven't been able to produce any Noble Laureates. We have highly talented youth population living in the rural India which needs to be uplifted. The author strongly emphasizes that the teaching of science should be started right from the early years in childhood. This can only be achieved by changing the methods of teaching right at the preprimary and the primary stages. The teachers should be trained to see that the child's curiosity, zest, vitality and interest are maintained throughout the school life. Our examination system also needs a revamp and this should be taken up seriously. One of the greatest setbacks of our educational system is that our children are not able to apply the acquired knowledge to an unknown situation and solve a problem they face. The author blames our examination system for it. He further speaks about the importance of teaching English language in our country.

Resources in education, 1989-04 *Indian National Bibliography* Bellary Shamanna Kesavan, 1974 *Competition Science Vision*, 2004-08. *Competition Science Vision* monthly magazine is published by Pratiyogita Darpan Group in India and is one of the best Science monthly magazines available for medical entrance examination students in India. Well qualified professionals of Physics, Chemistry, Zoology and Botany make contributions to this magazine and craft it with focus on providing complete and to the point study material for aspiring candidates.
