Engineering at the Warsaw University of Technology in Poland *Shotcrete* Dudley Robert Morgan, Marc Jolin, 2022-03-29

Shotcrete Materials Performance and Use is a comprehensive textbook covering the current state of the art shotcrete technology. It provides an overview of the many and various uses of shotcrete. Shotcrete is well suited for construction of curvilinear structures, domes, shells, bobsleigh luge tracks, etc., and overhead shotcrete applications, seismic retrofit repairs, ground support, etc., that could not be constructed technically and/or economically using conventional formed cast in place concrete construction methods. It contains chapters on history, shotcrete materials and mixture proportioning, performance, shotcrete research equipment, and shotcrete application. It is also comprised of shotcrete case history examples including buildings and structures, infrastructure repair and rehabilitation, ground support and shoring, underground support in tunnels and mines, swimming pools and spas, and finally architectural shotcrete. This text should be of interest to design engineers and architects considering the use of the technology as well as academics. It serves as a useful guide to contractors using shotcrete in one or more of its many and various applications.

Investigation of Spall Repair Materials for Concrete Pavement, 2006. This project investigated the properties and performance of the products used for spall repair of concrete pavement. A survey of Texas Department of Transportation (TxDOT) maintenance engineers produced a roster of 10 repair materials currently in use in the state. After identifying the key characteristics of a successful repair material, a laboratory testing program was developed to evaluate the properties of the repair materials. These materials were tested for strength, compatibility, and bond to quantify their characteristics relative to those products known to work well.
