Magick In Theory And Practice:

Magick in Theory and Practice The Master Therion, EXISTENCE as we know it is full of sorrow To mention only one minor point every man is a condemned criminal only he does not know the date of his execution This is unpleasant for every man Consequently every man does everything possible to postpone the date and would sacrifice anything that he has if he could reverse the sentence Practically all religions and all philosophies have started thus crudely by promising their adherents some such reward as immortality No religion has failed hitherto by not promising enough the present breaking up of all religions is due to the fact that people have asked to see the securities Men have even renounced the important material advantages which a well organized religion may confer upon a State rather than acquiesce in fraud or falsehood or even in any system which if not proved guilty is at least unable to demonstrate its innocence Being more or less bankrupt the best thing that we can do is to attack the problem afresh without preconceived ideas Let us begin by doubting every statement Let us find a way of subjecting every statement to the test of experiment Is there any truth at all in the claims of various religions Let us examine the question Our original difficulty will be due to the enormous wealth of our material To enter into a critical examination of all systems would be an unending task the cloud of witnesses is too great Now each religion is equally positive and each demands faith This we refuse in the absence of positive proof But we may usefully inquire whether there is not any one thing upon which all religions have agreed for if so it seems possible that it may be worthy of really thorough consideration It is certainly not to be found in dogma Even so simple an idea as that of a supreme and eternal being is denied by a third of the human race Legends of miracle are perhaps universal but these in the absence of demonstrative proof are repugnant to common sense But what of the origin of religions How is it that unproved assertion has so frequently compelled the assent of all classes of mankind Is not this a miracle There is however one form of miracle which certainly happens the influence of the genius There is no known analogy in Nature One cannot even think of a super dog transforming the world of dogs whereas in the history of mankind this happens with regularity and frequency Now here are three super men all at loggerheads What is there in common between Christ Buddha and Mohammed

Magick in Theory and Practice Aleister Crowley, 2014-01-03 Magic is the Highest most Absolute and most Divine Knowledge of Natural Philosophy advanced in its works and wonderful operations by a right understanding of the inward and occult virtue of things so that true Agents being applied to proper Patients strange and admirable effects will thereby be produced Whence magicians are profound and diligent searchers into Nature they because of their skill know how to anticipate an effect the which to the vulgar shall seem to be a miracle The Goetia of the Lemegeton of King Solomon Wherever sympathetic magic occurs in its pure unadulterated form it is assumed that in nature one event follows another necessarily and invariably without the intervention of any spiritual or personal agency Thus its fundamental conception is identical with that of modern science underlying the whole system is a faith implicit but real and firm in the order and uniformity of nature The magician does not doubt that the same causes will always produce the same effects that the performance of the proper ceremony accompanied by the appropriate spell will inevitably be attended by the desired results unless indeed his incantations should chance to be thwarted and foiled by the more potent charms of another sorcerer He supplicates no higher power he sues the favour of no fickle and wayward being he abases himself before no awful deity Yet his power great as he believes it to be is by no means arbitrary and unlimited

egalitarian creed If there is anything fundamentally diabolical about modern Satanism it stems more from the echoes of Nazism in its theories than from its horror comic trappings Modern Satanism covers the history ideology personalities and practices of the decentralized international movement that contemporary Satanism has become The work addresses the various beliefs and practices espoused by those who follow it the ideal of Satan as a rebellious emblem Satanism s occult literary and philosophical influences the history of the Church of Satan and other Satanic organizations the ideology of Satanism Satanism s frequent flirtations and strong parallels with neo Nazism and other forms of extremism Satanism in the media and popular culture and the reasons for Satanism s continuing attractiveness to new converts Though the tone of the work attempts to remain neutral when discussing historical matters it is by necessity critical of the subculture s extremist rhetoric and recurring associations with the far right and racist extremism

A Course of Instruction of Theory & Practice of Magic+ Magical Evocation + Magical Words Franz Bardon,2021-01-19 This volume contains all three books of theoretical and practical use by Franz Bardon Franz Bardon needs no introduction in the field of Magic Evocation occultism practical use of the first three tarot cards use of magical words and letters A Course of Instruction of Theory Practice of Magic Magical Evocation Magical Words Anyone who should believe to find in this work nothing else but a collection of recipes with the aid of which he can easily and without any effort attain to honor and glory riches and power and aim at the annihilation of his enemies might be told from the very inception that he will put aside this book being very disappointed Numerous sects and religions do not understand the expression of magic otherwise than black art witchcraft or conspiracy with evil powers It is therefore not astonishing that many people are frightened by a certain horror whenever the word magic is pronounced Jugglers conjurers and charlatans have discredited this term and considering this circumstance there is no surprise that magic knowledge has always been looked upon with a slight disregard Even in the remotest times the MAGUS has been regarded as one of the highest adepts and it might be of interest to learn that as a matter of fact the word magic is derived from this word The so called sorcerers are by no means initiates but only imitators o the mysteries who counting partly on the ignorance and partly on the credulity of the individuality or a whole nation in order to reach their selfish aims by lies and fraud The true magician will always despise such practices In reality magic is a sacred science it is in the very true sense the sum of all knowledge because it teaches how to know and utilize the sovereign rules There is no difference between magic and mystic or any other conception of the name Wherever authentic initiation is at stake one has to proceed on the same basis according to the same rules irrespective of the name given by this or that creed Considering the universal polarity rules of good and evil active and passive light and shadow each science can serve good as well as bad purposes Let us take the example of a knife an object that virtually ought to be used for cutting bread only which however can become a dangerous weapon in the hands of a murderer All depends on the character of the individual This principle goes just as well for all the spheres of the occult sciences In my book I have chosen the term of magician for all of my

disciples it being a symbol of the deepest initiation and the highest wisdom Many of the readers will know of course that the word tarot does not mean a game of cards serving mantical purposes but a symbolic book of initiation which contains the greatest secrets in a symbolic form The first tablet of this book introduces the magician representing him as the master of the elements and offering the key to the first Arcanum the secret of the ineffable name of Tetragrammaton the quabbalistic Yod He Vau He Here we will therefore find the gate to the magician s initiation The reader will easily realize how significant and how manifold the application of this tablet is Not one of the books published up to date does describe the true sense of the first Tarot card so distinctly as I have done in my book It is let it be noted born from the own practice and destined for the practical use of a lot of other people and all my disciples have found it to be the best and most serviceable system Tetragrammaton literally means the four letter word It was a subterfuge to avoid the sin of uttering the sacred name YHVH Yahveh or Jehova as it later became when the vowels of another word were combined with the consonants of YHVH But I would never dare to say that my book describes or deals with all the magic or mystic problems If anyone should like to write all about this sublime wisdom he ought to fill folio volumes It can however be affirmed positively that this work is indeed the gate to the true initiation the first key to using the universal rules I am not going to deny the fact of fragments being able to be found in many an author s publications but not in a single book will the reader find so exact a description of the first Tarot card I have taken pains to be as plain as possible in the course of the lectures to make the sublime Truth accessible to everybody although it has been a hard task sometimes to find such simple words as are necessary for the understanding of all the readers I must leave it to the judgment of all of you whether or not my efforts have been successful At certain points I have been forced to repeat myself deliberately to emphasize some important sentences and to spare the reader any going back to a particular page There have been many complaints of people interested in the occult sciences that they had never got any chance at all to be initiated by a personal master or leader guru Therefore only people endowed with exceptional faculties a poor preferred minority seemed to be able to gain this sublime knowledge Thus a great many of serious seekers of the truth had to go through piles of books just to catch one pearl of it now and again The one however who is earnestly interested in his progress and does not pursue this sacred wisdom from sheer curiosity or else is yearning to satisfy his own lust will find the right leader to initiate him in this book No incarnate adept however high his rank may be can give the disciple more for his start than the present book does If both the honest trainee and the attentive reader will find in this book all they have been searching for in vain all the years then the book has fulfilled its purpose completely The Author
