*How Sex Got Screwed Up: The Ghosts that Haunt Our Sexual Pleasure - Book One* Jon Knowles, 2019-06-28 The ghosts that haunt our sexual pleasure were born in the Stone Age Sex and gender taboos were used by tribes to differentiate themselves from one another These taboos filtered into the lives of Bronze and Iron Age men and

women who lived in city states and empires For the early Christians all sex play was turned into sin instilled with guilt and punished severely With the invention of sin came the construction of women as subordinate beings to men Despite the birth of romance in the late middle ages Renaissance churches held inquisitions to seek out and destroy sex sinners all of whom it saw as heretics The Age of Reason saw the demise of these inquisitions But it was doctors who would take over the roles of priests and ministers as sex became defined by discourses of crime degeneracy and sickness The middle of the 20th century saw these medical and religious teachings challenged for the first time as activists such as Alfred Kinsey and Margaret Sanger sought to carve out a place for sexual freedom in society However strong opposition to their beliefs and the growing exploitation of sex by the media at the close of the century would ultimately shape 21st century sexual ambivalence Book One of this two part publication traces the history of sex from the Stone Age to the Enlightenment Interspersed with personal hauntings from his own life and the lives of friends and relatives Knowles reveals how historical discourses of sex continue to haunt us today This book is a page turner in simple and plain language about how sex got screwed up for millennia For Knowles if we know the history of sex we can get over it *The American Mercury* George Jean Nathan, Henry Louis Mencken, 1928 Planet Mars Secrets Saket Shah, 2020-01-05 In a Vedic Astrology Horoscope the positions and effect of 9 heavenly bodies are carefully examined These are the seven planets Sun Moon Mars Mercury Jupiter Venus and Saturn along with two nodes Rahu and Ketu Each planet has a long list of significations which are further divided into the direction metals age nature elements body part body system colors rulership of zodiac signs and the host of other attributes which a good Astrologer has to keep in mind at the time of making the calculations and giving the forecast While all planets are given equal attention but it is Mars which is given special attention to check for suddenness in giving bad results if it is a malefic At the time of matching the Horoscopes for marriage purposes it is the presence or absence of Manglik feature which is checked before anything else So let us go a little deeper into the nature functioning and mode of operation of Mars in a Horoscope Is it always to be feared or does it have the power to give also Mars is the fourth planet from the Sun It is called Mangal in Hindi Kujja in Sanskrit West has named it after the Roman God of War Mars is also referred to as the Red Planet because of its reddish appearance as seen from Earth Similarly all the planets are divided into 4 elements of nature Fire Earth Air and Water Mars is supposed to be a fiery planet As the story goes in the Vedic system Mars is the commander in chief of the celestial army It is therefore quite natural to associate Mars with action raw energy after all it is fiery hot red and fast compared to Jupiter and Saturn it is a much faster planet orbiting the Sun **Rays from the Rose Cross** ,1922
