## Keeping Her English Edition:

Cyclopædia of English Literature Robert Chambers, 1844      *Essays in Understanding, 1930-1954* Hannah Arendt, 2005-06-07 Few thinkers have addressed the political horrors and ethical complexities of the twentieth century with the insight and passionate intellectual integrity of Hannah Arendt. She was irresistibly drawn to the activity of understanding in an effort to endow historic political and cultural events with meaning. *Essays in Understanding* assembles many of Arendt's writings from the 1930s, 1940s and into the 1950s. Included here are illuminating discussions of St Augustine, existentialism, Kafka and Kierkegaard, relatively early examinations of Nazism, responsibility and guilt, and the place of religion in the modern world, and her later investigations into the nature of totalitarianism that Arendt set down after *The Origins of Totalitarianism* was published in 1951. The body of work gathered in this volume gives us a remarkable portrait of Arendt's developments as a thinker and confirms why her ideas and judgments remain as provocative and seminal today as they were when she first set them down.      Words of Her Own Maroona Murmu, 2019-11-05 *Words of Her Own* situates the experiences and articulations of emergent women writers in nineteenth century Bengal through an exploration of works authored by them. Based on a spectrum of genres such as autobiographies, novels and travelogues, this book examines the sociocultural incentives that enabled the dawn of middle class Hindu and Brahmo women authors at that time. Murmu explores the intersections of class, caste, gender, language and religion in these works. Reading these texts within a specific milieu, Murmu sets out to rectify the essentialist conception of women's writings being a monolithic body of works that displays a firmly gendered form and content by offering rich insights into the complex world of subjectivities of women in colonial Bengal. In attempting to do so, this book opens up the possibility of reconfiguring mainstream history by questioning the scholarly conceptualization of patriarchy being omnipotent enough to shape the intricacies of gender relations resulting in the flattening of self-fashioning by women writers. The book contends that there were women authors who flouted the norms of literary aesthetics and tastes set by male literati, thereby creating a literary tradition of their own in Bangla and becoming agents of history at the turn of the century.      Briseis William Black, 1896      **Cyclopaedia of English Literature: Sixth period from 1727-1780.
