**Untangling Twinning** Maureen L. Condit, 2020-02-28 Scientists and philosophers have long struggled to answer the questions of when human life begins and when human life has inherent value The phenomenon of identical monozygotic twinning presents a significant challenge to the view that human life and human personhood begin at conception The fact that a single embryo can split to generate two or more genetically identical embryos seems to defy the notion that prior to splitting an embryo can be a single human individual In Untangling Twinning Maureen Condit looks at the questions raised by human twinning based on a unique synthesis of molecular developmental biology and Aristotelian philosophy She begins with a brief historical analysis of the current scientific perspective on the embryo and proceeds to address the major philosophic and scientific concerns regarding human twinning and embryo fusion Is the embryo one human or two or even more Does the original embryo die and if not which of the twins is the original Who are the parents of the twins What do twins chimeras cloning and asexual reproduction in humans mean And what does the science of human embryology say about human ensoulment human individuality and human value Condit's original approach makes a unique contribution to the discussion of human value and human individuality and offers a clear evidence based resolution to questions raised by human twinning The book is written for students and scholars of bioethics scientists theologians and attorneys who are involved in questions surrounding the human embryo

**Crossing the Kingdom** Loring M. Danforth, 2016-03-29 For many people the Kingdom of Saudi Arabia evokes images of deserts camels and oil along with rich sheikh in white robes oppressed women in black veils and terrorists But when Loring Danforth traveled through the country in 2012 he found a world much more complex and inspiring than he could have ever imagined With vivid descriptions and moving personal narratives Danforth takes us across the Kingdom from the headquarters of Saudi Aramco the country's national oil company on the Persian Gulf to the centuries old city of Jeddah on the Red Sea coast with its population of undocumented immigrants from all over the Muslim world He presents detailed portraits of a young woman jailed for protesting the ban on women driving a Sufi scholar encouraging Muslims and Christians to struggle together with love to know God and an artist citing the Quran and using metal gears and chains to celebrate the diversity of the pilgrims who come to Mecca Crossing the Kingdom paints a lucid portrait of contemporary Saudi culture and the lives of individuals who like us all grapple with modernity at the dawn of the twenty first century
