**The John F. Kennedy Assassination** Sylvia Engdahl, 2010-10-29 This essential volume examines the historical events leading up to and following the J F K assassination and controversies surrounding the event including the validity of the official account of the shooting and the subsequent decline of faith in government Includes personal narratives from people who experienced the event at home and abroad *John F Kennedy* iMinds, 2009 Learn about the life and times of John F Kennedy with iMindsJNR audio learning series for younger minds John Fitzgerald Kennedy or JFK was President of the United States of America from 1961 to 1963 From his unlikely rise to power at the age of forty three to his dramatic death at the hand of an assassin his presidency marked a transformative and tumultuous period in American history Kennedy was America's first Catholic President **A Thousand Days [sound Recording] : John F. Kennedy in the White House** Arthur Meier Schlesinger, 1986 *Index to Educational Audio Tapes* National Information Center for Educational Media, 1974 **Investigation of the Assassination of President John F. Kennedy**, 1964 *One Giant Leap* Charles Fishman, 2019-06-11 The remarkable story of the trailblazers and the ordinary Americans on the front lines of the epic mission to reach the moon President John F Kennedy astonished the world on May 25 1961 when he announced to Congress that the United States should land a man on the Moon by 1970 No group was more surprised than the scientists and engineers at NASA who suddenly had less than a decade to invent space travel When Kennedy announced that goal no one knew how to navigate to the Moon No one knew how to build a rocket big enough to reach the Moon or how to build a computer small enough and powerful enough to fly a spaceship there No one knew what the surface of the Moon was like or what astronauts could eat as they flew there On the day of Kennedy's historic speech America had a total of fifteen minutes of spaceflight experience with just five of those minutes outside the atmosphere Russian dogs had more time in space than U S astronauts Over the next decade more than 400 000 scientists engineers and factory workers would send 24 astronauts to the Moon Each hour of space flight would require one million hours of work back on Earth to get America to the Moon on July 20 1969 More than fifty years later *One Giant Leap* is the sweeping definitive behind the scenes account of the furious race to complete one of mankind's greatest achievements It's a story filled with surprises from the item the astronauts almost forgot to take with them the American flag to the extraordinary impact Apollo would have back on Earth and on the way we live today Charles Fishman introduces readers to the men and women who had to solve 10 000 problems before astronauts could reach the Moon From the research labs of MIT where the eccentric and legendary pioneer Charles Draper created the tools to fly the Apollo spaceships to the factories where dozens of women sewed spacesuits parachutes and even computer hardware by hand Fishman captures the exceptional feats of these ordinary Americans *One Giant Leap* is the captivating story of men and women charged with changing the world as we knew it their leaders their triumphs their near disasters all of which led to arguably the greatest success story and the greatest adventure story of the twentieth century The
