Youth, Education, and Islamic Radicalism Mun'im Sirry, 2024-03-15 *Youth Education and Islamic Radicalism* offers groundbreaking analysis of religious intolerance and radicalization among high school and university students in modern-day Indonesia. Indonesia is one of the most diverse countries in the world in terms of religion, ethnicity, and socioeconomic status, but also in the complexity of its education system. *Youth Education and Islamic Radicalism* examines the roots of religious intolerance among young Indonesians and explores the various ways in which educated youth navigate radical ideologies amid growing religious conservatism. The book presents nuanced explanations as to why one person becomes radicalized while another does not, calling into question the common assumption that religious radicalism is directly connected to terrorism. It problematizes the notion that the university is a significant hub, trigger, or birthplace of radicalization by asking: What makes education attractive for extremist recruitment? What shapes students' views? Under what circumstances do radicalization and deradicalization processes of educated youth take place? *Youth Education and Islamic Radicalism* identifies a constellation of factors that shape young people's views of religious diversity in Indonesia, demonstrating the ways in which they become radicalized in the first place and how, in some cases, they deradicalize themselves.

 because if things go on the way they are there s not much hope for humankind These are some of the comments from twenty
 African American teenagers coming of age in Chicago at the close of the 20th century These comments raise challenging
 questions What expectations do African American youth hold concerning racial injustice What expectations do black youth
 hold about other issues that are important to them such as violence How relevant is the black church to the issues that
 circumscribe the lives of urban black youth How is the black church instrumental in confronting racial injustice that black

Forthcoming Books Rose Arny,1999 **Beyond Self-esteem** Thomas J. Cottle,2003 In *Beyond Self Esteem* Thomas J
 Cottle argues that America s preoccupation with notions of self esteem and self regard not only does not reflect the
 fundamental nature of the self but leads to selfish behavior and an inability to devote one s self to friendships The self Cottle
 writes is predicated on social relationships and more specifically on the affirmation each of us offers to the other as well as
 the degree of responsibility we find ourselves willing to take for one another It is Cottle s contention reinforced by his
 theoretical positions and by the narrative accounts of children and adults alike that affirmation of and the assumption of
 responsibility for other people remain the most ethical human actions Subject Guide to Books in Print ,2001
